A Message from Our Lead Director

Dear Fellow Shareholders,

As Johnson & Johnson's Lead Director, I value this opportunity to share with you some of the ways my fellow Directors and I work to represent your interests and keep your trust. Our entire Board continues to provide strong, independent leadership and remains directly accountable to you through active engagement and oversight of the company's strategy, performance, leadership and risk management. We also ensure a strong focus on the long-term success of the company through the Credo commitment of our Directors, executives and employees.

Over the past year, I had the pleasure of speaking with a robust cross-section of you and listening to your insights on key subjects, including board leadership, composition and refreshment; succession planning; compensation; sustainability risks and opportunities; the Board's oversight of risk; diversity and inclusion; and the future of health care and our company. I shared your perspectives with my fellow Directors, and as a result, we updated important disclosures and reaffirmed critical policies and practices.

You can see the results of our outreach in our updated board skills matrix, our robust Board evaluation process (adopting new technology which enables the inclusion of anonymous written feedback), our steady Board refreshment, and our thought leadership and enhanced reporting on environmental, social and governance topics. Please read about our newest Director nominee and our other Board, governance, risk oversight and compensation practices in the pages that follow.

As a company focused on improving the health of humanity globally, we are intensely focused on the opportunities, as well as the risks, created by ever-shifting political, human capital, and other dynamics. The Drucker Institute rates Johnson & Johnson as one of the five best-managed companies in the United States with top-tier recognition for financial management, innovation, how we treat our people, and how we conduct ourselves globally. Despite that success, we maintain our sights on future performance, steadily raising the bar we set for ourselves to deliver long-term, sustainable results in line with Our Credo.

Independent, effective Board leadership and the talent and hard work of our executive team and our employees around the globe are at the core of our past achievements and fuel our future success. My role as Lead Director includes a broad range of responsibilities consistent with most independent Board chairs, impacting all critical aspects of the Board's operations and decision-making. I focus on making the Lead Director role effective by providing strong independent leadership of the Board, and keeping in frequent contact with the Chairman. Together, we ensure the effective functioning of the Board/management relationship. As we periodically evaluate our Board's leadership structure, we are mindful of the need for a governance framework that allows the Board flexibility to select the best structure based on the specific needs of the business at the time and what we believe is in the best interests of shareholders. All our Directors select our Board Chair as well as our Lead Director. I commit to you that your Johnson & Johnson Board will continue to advance the long-term interests of shareholders and remain accountable to you through a variety of meaningful governance practices. We hope you agree that this structure incorporates the checks and balances that a large global healthcare company like ours requires.

Thank you for your investment in Johnson & Johnson and the trust that it implies—it is that trust we continually work to retain. We kindly request that you support our voting recommendations and we invite you to share your thoughts with us throughout the year via any of the means we highlight in this Proxy Statement.

Sincerely,

Anne M. Mulcahy

Board Nominee Composition

Understanding the importance of board composition and refreshment for effective oversight, the Nominating & Corporate Governance Committee strives to maintain a diverse board of Directors, with diversity reflecting differences in skills, regional and industry experience, background, race, ethnicity, gender and other unique characteristics. The Board welcomed a new director every year during the period from 2009 to 2015. This year, Dr. Jennifer A. Doudna was recommended for nomination by the Nominating & Corporate Governance Committee, in keeping with the Board's commitment to refreshment, diversity and seeking out directors who are widely recognized as leaders in the fields of medicine or the biological sciences (see "Nominees" on page 11). The Board remains committed to refreshment and to seeking out highly qualified women and minority candidates as well as candidates with diverse backgrounds, skills and experiences. Below are highlights of the composition of our Director nominees:

BOARD LEADERSHIP STRUCTURE

- **Chairman of the Board and CEO: Alex Gorsky**
- **Independent Lead Director: Anne M. Mulcahy**
 - **Both positions designated annually by the independent Directors and reviewed annually by the Nominating & Corporate Governance Committee**
- **All 5 main Board Committees composed of independent Directors**
- **Independent Directors met in executive session at each of the 8 regular 2017 Board meetings**

Our Directors believe that there are positives and negatives related to all possible board leadership structures, which must be considered in the context of the specific circumstances, culture and challenges facing a company, and that such consideration falls squarely on the shoulders of a company's board, holding a diversity of views and experiences. As discussed in "Item 1: Election of Directors" on pages 11 to 16 of this Proxy Statement, our Directors come from a variety of organizational backgrounds with direct experience in a wide range of leadership and management structures. Moreover, our independent Directors appropriately challenge management and demonstrate the free-thinking expected of today's Directors. Given this makeup, our Board is in a very strong position to evaluate the pros and cons of the various types of board leadership structures, considering the perspectives of shareholders, and to ultimately decide which one best serves the interests of our stakeholders, as they are defined in Our Credo (on the back inside cover of this Proxy Statement).

Our Board believes that it remains in our company's best interests for Mr. Gorsky to serve as Chairman of our Board. Having Mr. Gorsky, our company's CEO, serve as Chairman creates clear and unambiguous authority, which is essential to effective management. Further, given that he is closer to our company's businesses than any other Board member and has the benefit of over 20 years of operational and leadership experience within the Johnson & Johnson Family of Companies, Mr. Gorsky is best positioned to provide effective leadership. Mr. Gorsky's career experience gives him unsurpassed industry knowledge, which the Board believes is critical for the chairman of the board of a company that operates in a highly-regulated industry, such as health care.

Our Board believes that it remains in our company's best interests for Ms. Mulcahy to serve as Lead Director. The Lead Director role includes the broad range of responsibilities set out below, consistent with most independent board chairs, impacting all critical aspects of the Board's operations and decision-making.

The Lead Director provides strong independent leadership of the Board and keeps in frequent contact with the Chairman.

Throughout 2017, the Chairman and Lead Director collaborated to:

- Create the agendas for Board and Committee meetings
- Evaluate the successes and opportunities from past meetings
- Handle a range of board governance issues such as board refreshment and succession planning
- Meet with large shareholders and proxy voting advisory firms
- Address key corporate transactions, capital allocation, and talent management
- Ensure the effective functioning of the board/management relationship consistent with Our Credo values

Our Board, through its Nominating & Corporate Governance Committee, will continue to periodically review its leadership structure in a serious and open-minded fashion to ensure it remains appropriate for our company.

In February 2018, our Board amended its Principles of Corporate Governance to reflect that our Nominating & Corporate Governance Committee reviews on an annual basis, and at other appropriate times, the Board's leadership structure, including whether the roles of Chairman and Chief Executive Officer should be combined or separate. The Principles of Corporate Governance can be found at www.investor.jnj.com/gov.cfm.

Our Board will continue to monitor this topic considering what it observes in the marketplace, the evolution of viewpoints in the corporate governance community, and, most importantly, what the Board believes is in the best interests of Johnson & Johnson and its stakeholders.

DIRECTOR INDEPENDENCE

All Directors are independent except for our CEO

It is our goal that at least two-thirds of our Directors be “independent,” not only as that term may be defined legally or mandated by the New York Stock Exchange (NYSE), but also without the appearance of any conflict in serving as an independent Director. The Board of Directors has determined that all non-employee Directors who served during fiscal 2017, as well as our new Director nominee, are “independent” under the listing standards of the NYSE and our Standards of Independence, including: Dr. Beckerle, Mr. I. E. L. Davis, Mr. D. S. Davis, Dr. Doudna, Dr. McClellan, Ms. Mulcahy, Mr. Perez, Mr. Prince, Dr. Washington and Mr. Williams.

In order to assist the Board in making this determination, the Board adopted Standards of Independence as part of our Principles of Corporate Governance, which can be found at www.investor.jnj.com/gov.cfm. These Standards conform to, or are stricter than, the NYSE independence standards and identify, among other things, material business, charitable and other relationships that could interfere with a director’s ability to exercise independent judgment.

As highly accomplished individuals in their respective industries, fields and communities, the non-employee Directors and Director nominee are affiliated with numerous corporations, educational institutions, hospitals and charities, as well as civic organizations and professional associations, many of which have business, charitable or other relationships with the company. The Board considered each of these relationships in light of our Standards of Independence and determined that none of these relationships conflict with the interests of the company or would impair the relevant non-employee Director’s, or new Director nominee’s, independence or judgment.

The following table describes the relationships that were considered in making this determination. The nature of the transactions and relationships summarized in the following table, and the role of each of the Directors and new Director nominee at their respective organizations, were such that none of the non-employee Directors or new Director nominee had any direct business relationships with the company in 2017 or received any direct personal benefit from any of these transactions or relationships.

All of the transactions and relationships of the type listed below were entered into, and payments were made or received, by the company or one of its subsidiaries in the ordinary course of business and on competitive terms. In 2015, 2016 and 2017, the company’s transactions with, or discretionary charitable contributions to, each of the relevant organizations (not including gifts made under our matching gifts program) did not exceed the greater of \$1 million or 1% of that organization’s consolidated gross revenues, and therefore did not exceed the thresholds in our Standards of Independence.

In the event of Board-level discussions pertaining to a potential transaction or relationship involving an organization with which a Director is affiliated, that Director would be expected to recuse him or herself from the deliberation and decision-making process. In addition, other than potential review and approval of related person transactions under our Policy on Transactions with Related Persons described on page 33 of this Proxy Statement, none of the non-employee Directors has the authority to review, approve or deny any grant to, or research contract with, an organization.

SHAREHOLDER ENGAGEMENT

We actively engage with our shareholders throughout the year to listen to concerns, ask questions and share information and perspectives.

In 2017, our engagement took a number of forms:

- During the proxy season, we reached out to our top 100 shareholders, who represent approximately 45% of our outstanding shares, and sought a dialogue and feedback on issues raised in our 2017 Proxy Statement.
- We included a section on our voting card inviting all of our shareholders to give us comments. We were pleased that over 250 shareholders did so. This supplemented the means we provide—and highlight in our Proxy Statement—to contact our Board at any time throughout the year.
- At the direction of our Lead Director, we also greatly expanded from 13 to 24 the number of individual, personal engagement meetings we held with shareholders and key proxy advisers

We are particularly proud that a number of our key engagement meetings included both our Chairman and our Lead Director—a practice we understand is rare. These meetings enabled our shareholders to witness as well as discuss with our leadership the frequency of their communications, how they collaborate to create the agendas for Board and Committee meetings, how they evaluate the content and suggestions arising from past Board and Committee meetings, how they handle a range of board governance issues such as board refreshment and succession planning, and how they address key corporate transactions, capital allocation, and talent management. These meetings also enabled them to share their personal commitments to Our Credo.

Our 2017 engagement meetings and other governance exchanges covered a wide range of important corporate governance, environmental and social stewardship, compensation, public policy and performance issues. These included:

We shared the content of many of these discussions with our full Board or its key Committees.

As a result of these shareholder conversations and the Board's own discussions that followed, our Board and its Committees took a number of actions in 2017, several of which are highlighted below:

Shareholder Feedback Received	Actions Taken	Page #
<i>You should continue to seek even greater diversity on your Board.</i>	We strengthened our diversity by adding a new Board nominee, Dr. Jennifer A. Doudna. Her deep scientific background, vast academic experience and enduring concern for ethics in science will add to the global, ethical and scientific perspective and diversity of our Board.	13
<i>Your Board skills and diversity matrices were good in last year's Proxy Statement, but can you make them even better by being more transparent?</i>	We enhanced our Proxy Statement's Board Nominee Composition and skills disclosures by adding separate and more detailed graphics setting out the qualities, attributes, skills and experiences of our Board, including separate representations of gender and racial diversity.	18
<i>You give arguments about why you believe your current Board structure with a combined Chairman & CEO works best for your company. But how do we know your Board is actually taking the appropriate time on a systemic basis to review the issue in light of all circumstances?</i>	We amended our Principles of Corporate Governance to reflect that our Nominating & Corporate Governance Committee reviews the Board's leadership structure on an annual basis, and at other appropriate times, including whether the roles of Chairman and Chief Executive Officer should be combined or separate. See www.investor.jnj.com/gov.cfm.	19
<i>How do the roles of Lead Director and Chairman differ from one another and how do they work together?</i>	We discussed our Leadership Structure extensively in shareholder engagement and we enhanced our disclosure to be more transparent about how the two roles collaborate at our company. See <i>Board Leadership Structure</i>.	19
<i>How does your Board Evaluation Process work?</i>	We discussed our Board Evaluation Process and the insights from feedback coming out of our Board Evaluation Process, and we added disclosure in the Proxy Statement to provide transparency to all our shareholders about Board and Committee evaluation processes and outcomes. See <i>Board Meetings and Processes</i>.	32
<i>Could you be more transparent about your drug pricing practices?</i>	In early 2017, the Janssen Pharmaceutical Companies of Johnson & Johnson released a ground-breaking 2016 U.S. Transparency Report with information on pharmaceutical pricing and other business practices, covering everything from discovery to the commercialization of pharmaceuticals. Janssen released a follow up report in March 2018 available at Janssen.com/2017USTransparencyReport.	
<i>Tell us about your efforts in Citizenship & Sustainability.</i>	In September 2016, we announced a comprehensive United Nations Sustainable Development Goals (UN SDG) commitment focused on five key areas where we are uniquely positioned to create sustainable and scalable impact: Global Disease Challenges, Essential Surgery, Women's & Children's Health, Health Workforce, and Environmental Health. We also have worked to improve and expand the content of our Health for Humanity Report, which provides transparency to our Citizenship & Sustainability commitments. See our Health for Humanity Report available at http://healthforhumanityreport.jnj.com/downloads.	

RISK OVERSIGHT

Board Oversight of Risk Management

The Board believes that overseeing management's processes for assessing and managing the various risks we face is one of its most important responsibilities to our stakeholders. Our enterprise risk management framework reflects a collaborative process, whereby our Board of Directors, management and other personnel apply a consistent, rigorous risk management approach to our strategic, planning and operational decisions across the enterprise that is designed to identify potential events that may present a risk to the company. With oversight from the Board of Directors, business leaders collaborate with leaders from applicable risk management functions to analyze these risks and develop an appropriate approach to resolve or mitigate the impact of such risk factors. Some risk factors, such as product quality and healthcare compliance, are both top business priorities and core Credo values, and we have designed strong internal compliance programs and rigorous, independent quality and safety review processes to ensure compliant business practices and high quality products.

The Board believes that oversight of risk management is a vital element of its responsibility and meets at regular intervals with business leaders and leaders of risk management functions to discuss the risk factors related to our company, which can generally be grouped into the following categories and risk areas:

The Board also receives regular reports on certain elements of our risk management from senior representatives of our independent auditor. In addition, the Audit Committee meets in private sessions with the Chief Financial Officer, General Counsel, Vice President of Internal Audit, and representatives of our independent auditor to discuss risk management issues at the conclusion of every regularly-scheduled meeting. The Regulatory, Compliance & Government Affairs Committee also meets in private sessions with the General Counsel, Chief Compliance Officer, Chief Quality Officer, and Vice President of Internal Audit, where risk management is discussed.

Risk Related to Executive Compensation

The following characteristics of our executive compensation program work to reduce the possibility that our executive officers, either individually or as a group, make excessively risky business decisions that could maximize short-term results at the expense of long-term value:

Characteristics	Description	Page #
<i>Balanced Approach to Performance-Based Awards</i>	<p>Performance targets are tied to multiple financial metrics, including operational sales growth, free cash flow, adjusted operational earnings per share growth, and long-term total shareholder return</p> <p>Performance-based awards are based on the achievement of strategic and leadership objectives in addition to financial metrics</p> <p>See "Base Salary, Annual Performance Bonus, and Long-Term Incentives"</p>	57
<i>Performance Period and Vesting Schedules</i>	The performance period and vesting schedules for long-term incentives overlap and, therefore, reduce the motivation to maximize performance in any one period. Performance Share Units, Restricted Share Units, and Stock Options vest three years from the grant date. See "Long Term Incentives"	58
<i>Balanced Mix of Pay Components</i>	The target compensation mix is not overly weighted toward annual incentive awards and represents a balance of cash and long-term equity-based compensation vesting over three years. See "2017 Pay Mix at Target"	60
<i>Capped Incentive Awards</i>	Annual performance bonuses and long-term incentive awards are capped at 200% of target. See "Aligning Compensation to "The What" & "The How""	63
<i>Stock Ownership Guidelines</i>	These guidelines require our CEO to directly or indirectly own equity in our company equal to six times salary, and the other members of our Executive Committee (the principal management group) to own equity equal to three times salary, and to retain this level of equity at all times while serving as an Executive Committee member. See "Stock Ownership Guidelines for Named Executive Officers"	66
<i>Executive Compensation Recoupment Policy</i>	This Policy gives our Board authority to recoup executive officers' past compensation in the event of a material restatement of our financial results and for events involving material violations of company policy relating to the manufacturing, sales or marketing of our products. See "Executive Compensation Recoupment Policy"	67
<i>No Change-in-Control Arrangements</i>	None of our executive officers have in place any change-in-control arrangements that would result in guaranteed payouts. See "Potential Payments Upon Termination"	83

ADDITIONAL GOVERNANCE FEATURES

Proxy Access

In 2015, as part of our long-standing shareholder outreach program, we engaged with a number of our shareholders regarding proxy access and the potential terms of proxy access provisions that our shareholders would view as appropriate for Johnson & Johnson. After taking into account the feedback provided as part of these discussions and considering developments in market practice, in January 2016, we amended our By-Laws to implement proxy access with the following key parameters:

Ownership threshold:	3% of outstanding shares of our common stock
Holding period:	Continuously for 3 years
Number of nominees:	Up to 20% of our Board, with a minimum of up to two nominees if Board size is less than 10
Nominating group size:	Up to 20 shareholders may group together to reach the 3% ownership threshold

We continue to believe this proxy access framework reflects a thoughtfully designed and balanced approach to proxy access that mitigates the risk of abuse and protects the interests of all of our shareholders, while affording a meaningful proxy access right in light of our size and shareholder base. Shareholders who wish to nominate directors for inclusion in our Proxy Statement in accordance with the proxy access procedures in our By-Laws should see “General Information—Notice and Access” on page 95.

Majority Voting In Uncontested Director Elections

Our By-Laws require that in uncontested elections (those where the number of nominees does not exceed the number of directors to be elected), Director nominees receive the affirmative vote of a majority of the votes cast in order to be elected to our Board of Directors. Contested Director elections (those where the number of Director nominees exceeds the number of Directors to be elected) would be governed by the plurality standard under New Jersey law.

The Board has adopted a Director Resignation Policy for Incumbent Directors in Uncontested Elections. Specifically, if an incumbent Director receives more votes “Against” his or her election than votes “For” his or her election in an uncontested election, then such Director must promptly tender an offer of his or her resignation following certification of the shareholder vote. The Nominating & Corporate Governance Committee and the Board would then consider and take appropriate action on such offer of resignation in accordance with the Policy.

Our By-Laws and Principles of Corporate Governance, including the Director Resignation Policy for Incumbent Directors in Uncontested Elections, can be found at www.investor.jnj.com/gov.cfm.

Director Overboarding Policy

Our Principles of Corporate Governance state that a Director who serves as a CEO (or similar position) at our, or any other, company should not serve on more than two public company boards (including the Johnson & Johnson Board and his or her own board) and that other Directors should not serve on more than five public company boards (including the Johnson & Johnson Board). Currently, all of our Directors are in compliance with this policy. The Nominating & Corporate Governance Committee also monitors the board service of Directors for entities that are not public companies.

Political Spending Oversight and Disclosure

As a leader in the healthcare industry, Johnson & Johnson is committed to supporting the development of sound public policy in health care. We work with many organizations across the political spectrum on a variety of policy issues related to health and other topics that impact patients, consumers, and our company. As a result of constructive engagement with a number of our institutional investors, we were an early mover on the disclosure of corporate political expenditures and activities, and we have expanded that disclosure over the years as we continue the dialogue with our shareholders on this issue. Disclosure regarding the company's political activities and expenditures, including the policies and procedures that govern that activity and spending, as well as the Board's oversight role, are updated semi-annually and can be found at www.investor.jnj.com/gov/contributions.cfm.

In response to shareholder engagement on this topic, we have provided the following on our website:

- A breakdown of our trade association dues by dollar range, including the percentage of dues that is utilized for federal lobbying, for U.S. trade associations to which we paid annual dues of \$50,000 or more
- A description of our approach and processes to impact trade associations of which we are members when we do not align on an issue
- The annual total amount of federal lobbying expenditures for the last fiscal year
- The aggregate annual total amount of state lobbying expenditures for the last fiscal year, based on amounts disclosed pursuant to lobbying regulations of the various state ethics oversight agencies
- A direct link to the most current filing of the Johnson & Johnson Political Action Committee federal campaign finance report
- A direct link to the most current quarterly filing of Johnson & Johnson's federal lobbying disclosure report

In addition to transparency, our Board believes oversight of political activities and expenditures is important. Our Regulatory, Compliance & Government Affairs Committee receives an annual report of the company's political contribution and lobbying policies, practices, and activities. In addition, the company's Political Action Committee and U.S. corporate political spending is audited biennially by our internal auditors.

BOARD COMMITTEES

The Board of Directors has a standing Audit Committee, Compensation & Benefits Committee, Nominating & Corporate Governance Committee, Regulatory, Compliance & Government Affairs Committee and Science, Technology & Sustainability Committee, each composed entirely of non-employee Directors determined to be “independent” under the listing standards of the NYSE and our Standards of Independence. Under their written charters adopted by the Board, each of these Committees is authorized and assured of appropriate funding to retain and consult with external advisors, consultants and counsel. In addition, the Board has a standing Finance Committee, composed of the Chairman of the Board and the Lead Director, which exercises the authority of the Board between Board meetings.

Board Committee Rotation

In 2016, the Board determined to rotate membership on each of its Committees, including the Chairman of three Committees. The Board altered the composition of our five key Committees, with each Committee having at least one new member and three Committees, Compensation & Benefits, Regulatory, Compliance & Government Affairs and Science, Technology & Sustainability, being led by a new Chairman. Each Committee, other than Finance, continues to be comprised solely of independent Directors.

For more information on Audit Committee activities in 2017, see the Audit Committee Report on page 86.

A copy of the charter of the Audit Committee is available at www.investor.jnj.com/gov/committee.cfm.

The Board has designated Mr. D. S. Davis, the Chairman of the Audit Committee and an independent Director, as an "audit committee financial expert" under the rules and regulations of the U.S. Securities and Exchange Commission (SEC), after determining that he meets the requirements for such designation. The determination was based on his being a Certified Public Accountant and his experience as Chief Financial Officer at United Parcel Service, Inc.

BOARD MEETINGS AND PROCESSES

Director Meetings and Attendance

During 2017, the Board of Directors held eight regular meetings and one special meeting. Each Director attended at least 75% of the total of regularly-scheduled and special meetings of the Board of Directors and the Committees on which he or she served (during the period that he or she served).

It has been our longstanding practice for all Directors to attend the Annual Meeting of Shareholders. All 10 of our Directors who were elected to the Board at the 2017 Annual Meeting attended the meeting.

Executive Sessions

During 2017, each of the Audit, Compensation & Benefits, Nominating & Corporate Governance, Regulatory, Compliance & Government Affairs, and Science, Technology & Sustainability Committees met in executive sessions without members of management present. The independent Directors met in executive session at every regular Board meeting during 2017 and held a special executive session to perform the annual evaluation of the CEO/Chairman. The Lead Director acted as Chair at all of these executive sessions.

Board and Committee Evaluations

Our Principles of Corporate Governance require that the Board and each Committee conduct an annual self-evaluation. These self-evaluations are intended to facilitate a candid assessment and discussion by the Board and each Committee of its effectiveness as a group in fulfilling its responsibilities, its performance as measured against the Principles of Corporate Governance, and areas for improvement.

Board Evaluations: At the end of 2016, the Lead Director, and certain members of management, met with each Director individually to collect feedback on the Board's responsibilities, structure, procedures, atmosphere and engagement. In 2017, the Nominating & Corporate Governance Committee initiated two process changes for gathering Board feedback. First, written questions were used with technology to ensure candid anonymous feedback from each Director. Second, at the request of the Lead Director, each of the non-employee Directors completed an anonymous written evaluation of the Lead Director. In all cases, input from the evaluations was synthesized and discussed with the full Board with certain minor and administrative action items emerging from the discussion.

Committee Evaluations: Committee members are provided with a questionnaire to facilitate discussion during an executive session of the Committee, and upon completion of the self-evaluation, the Chairman of the Committee reports to the full Board on the discussion and any necessary follow-up actions.

RELATED PERSON TRANSACTIONS

Policies and Procedures

Our written Policy on Transactions with Related Persons requires the approval or ratification by the Nominating & Corporate Governance Committee of any transaction or series of transactions exceeding \$120,000 in which the company is a participant and any related person has a direct or indirect material interest (other than solely as a result of being a director or trustee or less than 10% owner of another entity). Related persons include our Directors and executive officers and their immediate family members and persons sharing their households. It also includes persons controlling more than 5% of our outstanding common stock.

Under our Principles of Corporate Governance and Code of Business Conduct & Ethics for Members of the Board of Directors and Executive Officers, all of our Directors and executive officers have a duty to report to the Chairman or the Lead Director potential conflicts of interest, including transactions with related persons. Management also has established procedures for monitoring transactions that could be subject to approval or ratification under the Policy on Transactions with Related Persons.

Once a related person transaction has been identified, the Nominating & Corporate Governance Committee (Committee) will review all of the relevant facts and circumstances and approve or disapprove of the entry into the transaction. The Committee will take into account, among other factors, whether the transaction is on terms no more favorable than terms generally available to an unaffiliated third party under the same or similar circumstances and the extent of the related person's interest in the transaction.

If advance Committee approval of a transaction is not feasible, the transaction will be considered for ratification at the Committee's next regularly scheduled meeting. If a transaction relates to a member of the Committee, that member will not participate in the Committee's deliberations. In addition, the Committee Chairman (or, if the transaction relates to the Committee Chairman, the Lead Director) may pre-approve or ratify any related person transactions involving up to \$1 million.

The following types of transactions have been deemed by the Committee to be pre-approved or ratified, even if the aggregate amount involved will exceed \$120,000:

- Compensation paid by the company for service as a Director or executive officer of the company
 - Transactions with other companies where the related person's only relationship is as a non-executive employee, less than 10% equity owner, or limited partner, and the transaction does not exceed the greater of \$1 million or 2% of that company's annual revenues
 - Contributions by the company to charitable organizations where the related person is an employee and the transaction does not exceed the lesser of \$500,000 or 2% of the charitable organization's annual receipts
 - Transactions where the related person's only interest is as a holder of company stock and all holders receive proportional benefits, such as the payment of regular quarterly dividends
 - Transactions involving competitive bids
 - Transactions where the rates or charges are regulated by law or government authority
 - Transactions involving bank depository, transfer agent, registrar, trustee under a trust indenture, or party performing similar banking services
-

Our Policy on Transactions with Related Persons can be found at www.investor.jnj.com/gov.cfm.

STOCK OWNERSHIP AND SECTION 16 COMPLIANCE

Stock Ownership

The following table sets forth information regarding beneficial ownership of our common stock by each Director and nominee for election; our Chief Executive Officer, Chief Financial Officer and the three other most highly compensated executive officers named in the tables in the section “Executive Compensation Tables” on pages 68 through 85 (each a “named executive officer”); and by all Directors and executive officers as a group. Each of the individuals/group listed below is the owner of less than 1% of our outstanding shares. Because they serve as co-trustees of two trusts which hold stock for the benefit of others, Mr. Gorsky and Mr. Michael Ullmann, an executive officer, are deemed to “control” an additional 5,629,411 shares of our stock in which they have no economic interest, and those shares are not reflected in the table below. In addition to such shares, the Directors and executive officers as a group own/control a total of 1,167,341 shares. In the aggregate, these 6,796,752 shares represent less than 1% of the shares outstanding. All stock ownership is as of February 27, 2018.

Section 16(a) Beneficial Ownership Reporting Compliance

Based on our review of Forms 3, 4 and 5 and amendments thereto in our possession and written representations furnished to us, we believe that during 2017 all reports for our executive officers and Directors that were required to be filed under Section 16 of the Securities Exchange Act of 1934 were filed on a timely basis, except for nine reports, each in respect of three transactions filed by each of the following officers: J. Duato, P. Fasolo, A. Gorsky, R. A. Kapusta, J. S. Mesquita, S. E. Peterson, G. J. Pruden, P. Stoffels, and M. H. Ullmann. In each case, the company made such filings on behalf of the applicable officer and believed that such filings had been made in a timely manner, but technical errors delayed acceptance of the filings by the SEC until 6 a.m. on the morning following the company’s transmission.

DIRECTOR COMPENSATION

Our Compensation & Benefits Committee is required by its charter to annually review non-employee Director compensation, including total compensation and each element of our non-employee Director compensation program.

During its annual review, the Compensation & Benefits Committee analyzes the competitive position of our non-employee Director compensation program and each element of that program against the programs of the peer group used for executive compensation purposes (see page 61 for information about the Executive Peer Group). Frederic W. Cook & Co., Inc., the Committee's independent consultant, provides an independent assessment of the competitive data provided to the Committee and advises the Committee on non-employee Director compensation. Decisions regarding the non-employee Director compensation program are approved by our full Board of Directors, based on recommendations by our Compensation & Benefits Committee.

Fiscal 2017 Non-Employee Director Compensation

The Compensation & Benefits Committee's analysis in 2016 of the competitive position of our non-employee Director compensation program showed that overall compensation for non-employee Directors and the retainer for the Lead Director were below the peer group median. As a result, our Compensation & Benefits Committee recommended, and our Board of Directors approved on September 13, 2016, the following non-employee Director compensation program for 2017 to achieve an overall compensation structure in line with the peer group median.

2017 Non-Employee Director Compensation ⁽¹⁾	(\$)

Stock Awards (Column D)

Deferred Share Units - Mandatory Deferral. All figures in column D represent the grant date fair value of Deferred Share Units (DSUs) granted to each non-employee Director on February 14, 2017. The Board approved a 2017 DSU award valued at \$175,000; therefore, pursuant to the terms of the Deferred Fee Plan for Directors, each non-employee Director was granted 1,512 DSUs (rounded down to the nearest whole share). DSUs are immediately vested but must be deferred until the Director completes service as a Board member. DSUs earn additional amounts based on a hypothetical investment in our common stock, including accruing dividend equivalents in the same amount and at the same time as dividends paid on our common stock. DSUs are settled in cash upon termination of Board membership.

All Other Compensation (Column E)

Charitable Matching Contributions. The amounts reported in column E represent the aggregate dollar amount for each non-employee Director for charitable matching contributions. Non-employee Directors are eligible to participate in our charitable matching gift program on the same basis as employees, pursuant to which we contribute, on a two-to-one basis for every dollar donated, up to \$20,000 per year per person to certain charitable institutions.

Deferred Fee Plan for Directors

Elective Fee Deferrals. Under the Deferred Fee Plan for Directors, non-employee Directors may elect to defer payment of all or a portion of their cash retainers until termination of Board membership. Deferred fees are converted into DSUs, and earn additional amounts based on a hypothetical investment in our common stock, including accruing dividend equivalents in the same amount and at the same time as dividends paid on our common stock. DSUs are settled in cash upon termination of Board membership. In 2017, Dr. Washington and Messrs. Perez and Williams elected to defer all of their cash 2017 retainers.

Deferred Compensation Balances. At December 31, 2017, the aggregate number of DSUs held in each non-employee Director's Deferred Fee Account, including both mandatory deferrals and any elective fee deferrals, as well as dividend equivalent accruals, was as follows:

Name	Deferred Share Units (#)
M. C. Beckerle	3,267

Item 2: Advisory Vote to Approve Named Executive Officer Compensation

Before you vote, we urge you to read the following for additional details on our executive compensation

- **Executive Compensation Tables on pages 68 to 85**

The Board of Directors recommends that shareholders vote, in an advisory manner, **FOR approval** of the compensation of our named executive officers and the executive compensation philosophy, policies and procedures described in the Compensation Discussion and Analysis (CD&A) section of the 2018 Proxy Statement.

When casting your 2018 “Say on Pay” vote, we encourage you to consider:

- The **alignment of the 2017 compensation** of our Chairman/CEO and our other named executive officers **with our company’s 2017 performance**
- The **pay-for-performance alignment** built into the design of our incentive programs
- Our **continued evaluation** of our executive compensation program
- Our continued direct **engagement with our shareholders**

We recognize that executive compensation is an important matter for our shareholders. We believe our compensation programs are strongly aligned with the long-term interests of our shareholders.

The guiding principles of our executive compensation program continue to be:

- Competitiveness;
- Pay for Performance;
- Accountability for Short-Term and Long-Term Performance; and
- Alignment to Shareholders’ Interests.

Above all, we assess performance by reviewing not only what financial and strategic objectives are achieved but also how those results were achieved and whether they were achieved consistent with the values embodied in Our Credo.

As an advisory vote, the results of this vote will not be binding on the Board or the company. However, the Board of Directors values the opinions of our shareholders, and will consider the outcome of the vote when making future decisions on the compensation of our named executive officers and our executive compensation philosophy, policies and procedures.

Following our 2018 shareholder meeting on April 26, 2018 the next advisory vote on executive compensation is expected to occur at the 2019 Annual Meeting of Shareholders, unless the Board of Directors modifies its policy on the frequency of holding such advisory votes.

2017 Performance and Compensation

2017 SUMMARY

Our Credo

When we assess performance, we review not only what results were achieved but also how they were achieved and whether they were achieved consistent with the values embodied in Our Credo.

In 2017, we upheld our Credo values by focusing on the needs and well-being of: our patients, consumers, and health care professionals who use our products; our employees; the communities in which we live and work; and our shareholders.

Company Performance

We delivered solid performance in 2017. We largely met or exceeded our combined financial and strategic goals. This was driven by strong performance in our Pharmaceutical business. We made good progress on many important strategic initiatives that will benefit our company in future years.

Financial Goal	Goal	Results
Met our operational sales growth goal	4.0% - 5.0%	4.0%
Met our adjusted operational EPS growth goal	4.8% - 7.0%	6.5%
Exceeded our free cash flow goal (\$ Billions)	\$14.8 - \$15.6	\$17.8

Note: Operational sales growth, adjusted operational EPS growth, and free cash flow are non-GAAP measures. See page 46 for details. Our sales growth and EPS results do not include the impact of our Actelion Ltd. acquisition since it was not included in the goals.

We summarize our performance against our financial and strategic goals and the performance of each of our businesses on pages 44 to 46.

Compensation Decisions for 2017

The Board believes the company largely met or exceeded its combined financial and strategic goals. It recognized Mr. Gorsky's 2017 performance by awarding him an annual performance bonus at 110% of target and long-term incentives at 115% of target. After reviewing market data and other factors, the Board adjusted Mr. Gorsky's salary rate by 3.1% to \$1,650,000 (effective February 26, 2018).

	2017 Amount (\$)	Percent of Target (%)

Annual Performance Bonus	3,080,000	110%
Long-Term Incentive Awards	14,352,000	115%
Total Direct Compensation	\$19,032,000	

We describe the performance and compensation of our Chairman/CEO on page 47 and our named executive officers on pages 48 to 51.

Update on Performance Share Unit Awards vs. Goals

Our 2015-2017 Performance Share Units (PSU) paid out at 136.0% of target driven primarily by our 3-year Total Shareholder Return (TSR) exceeding our competitors and EPS performance exceeding our goals.

We describe the PSUs earned under all three of our PSU grants that were active in 2017 on pages 52 to 54.

Shareholder Outreach

Our Lead Director and management discussed our executive compensation program with our shareholders. Our shareholders continued to strongly support our program. Our "Say on Pay" vote has been 93% or more in favor since 2013. See page 55 for more detail.

Compensation Program Changes

In 2017, we increased the weight of our PSUs to 60% for our 2018 long-term incentive grant based on: shareholder feedback, competitive data, and our objective of increasing the focus on long-term performance. The weighting is: 60% PSUs, 30% options, and 10% RSUs. See page 55 for more detail.

2017 COMPANY PERFORMANCE

We delivered solid performance in 2017. We largely met or exceeded our combined financial and strategic goals. This was driven by strong performance in our Pharmaceutical business. We made good progress on many important strategic initiatives that will benefit our company in future years.

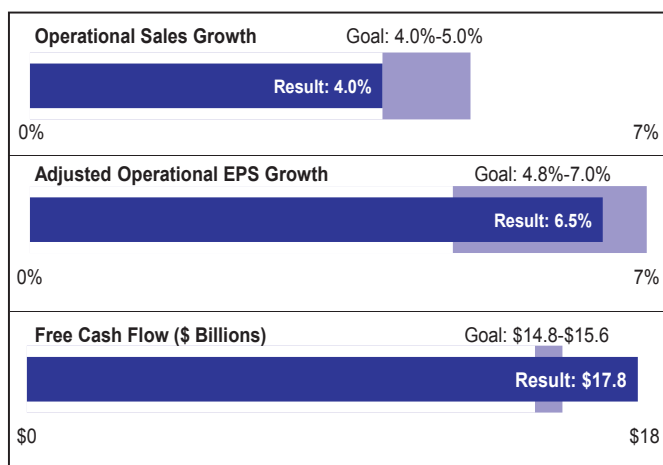

We summarize the company's performance against financial and strategic goals below. We also summarize the performance of each of our businesses. We set our goals based on our long-term strategic objectives, our product portfolio and pipeline, and competitive benchmarking.

Performance against our 2017 Financial Goals

We met or exceeded all our financial goals in 2017. We:

- **Met** our operational sales growth goal.
- **Met** our adjusted operational earnings per share (EPS) growth goal.
- **Exceeded** our free cash flow goal.

Our annual goals are set consistent with our long-term strategic objectives of growing sales faster than our competitors and earnings faster than sales. Our sales growth and EPS results do not include the impact of our Actelion Ltd. acquisition since it was not included in the goals.

Note: Operational sales growth, adjusted operational EPS growth, and free cash flow are non-GAAP measures. See page 46 for details.

Performance against our Long-Term Strategic Goals

We made good progress on our strategic objectives. We exceeded on some, fell short on others, and made important strategic moves that will benefit our company in future years.

- **Creating Value through Innovation:** We **partially met** our objectives that measure the health of our priority business platforms across all 3 businesses. We:

 - Fell short of our Medical Devices and Consumer sales goals and Pharmaceutical BRIC-market (Brazil, Russia, India, and China) sales goal.

2017 COMPENSATION DECISIONS FOR 2016 PERFORMANCE

How Compensation Decisions are Reported

In January and February of each year, we assess the performance of our named executive officers and we determine the:

- **Annual performance bonus** earned for the prior year's performance,
- **Long-term incentive award** granted in the first quarter of the year based on the prior year's performance, and
- **Salary rate** for the upcoming year.

The independent members of the Board approve the compensation decisions for the Chairman/CEO. The Compensation & Benefits Committee approves the compensation decisions for all other named executive officers.

In the tables below, we summarize the decisions regarding the annual performance bonuses, long-term incentive awards, and salary rates. We also show the 2017 total direct compensation. We believe that these tables best summarize the actions taken on the named executive officers' compensation for the performance year.

By contrast, most of the amounts required by the U.S. Securities and Exchange Commission's (SEC) rules to be reported in the "Summary Compensation Table" on page 68 are the result of compensation decisions from prior years, earnings from prior long-term incentive awards, or participation in long-standing pension programs as follows. The:

- **Stock Awards and Option Awards** are grants made in 2017 based on performance in 2016. For PSUs, grants from 2016 and 2015 are also included for the portion of the awards based on 2017 sales (since they were considered granted in 2017 according to U.S. accounting rules).
- **Non-Equity Incentive Plan Compensation** includes dividend equivalent payments on our legacy cash-based long-term incentive plans. We stopped granting cash-based long-term incentives in 2012.
- **Change in Pension Present Value** is not paid currently and the amount is highly sensitive to changes in mortality and interest rate assumptions.
- **Non-Qualified Deferred Compensation Earnings** is the growth in value of our legacy cash-based long-term incentive plans above a reference rate. We stopped granting these long-term incentives in 2012.

In the table below, we show the 2017 total direct compensation for our Chairman/CEO (shown on page 50), the total from the "Summary Compensation Table" on page 68, and the differences between the two amounts as described above.

Reconciliation of Our CEO's 2017 Total Direct Compensation to Summary Compensation Table (SCT) Total

Annual Performance Bonus (Column C)

Based on 2017 company performance and individual performance as discussed on pages 44 to 48, the Board and the Committee awarded annual performance bonuses on February 12, 2018 ranging from 95% to 150% of target for the named executive officers. See the "Grants of Plan-Based Awards" table on page 73 for the target bonus amounts.

Long-Term Incentive Awards (for 2017 performance) (Column D)

The Board and Committee granted long-term incentive awards on February 12, 2018 (ranging from 105% to 160% of target) to the named executive officers based on their 2017 performance, impact on the company's long-term results, competitive market data, and long-term potential within the organization.

In the table below, we show: the total long-term incentive awards granted; the weighting of Performance Share Units (PSUs), Stock Options, and Restricted Share Units (RSUs); and the individual award values.

Name	PSUs (\$)	Options (\$)	RSUs (\$)	Total Long-Term Incentives (\$)
Award Weight	60%	30%	10%	100%
A. Gorsky	\$8,611,200	\$4,305,600	\$1,435,200	\$14,352,000
D. Caruso	3,090,000	1,545,000	515,000	5,150,000
S. Peterson	3,378,000	1,689,000	563,000	5,630,000
J. Duato	3,786,000	1,893,000	631,000	6,310,000
P. Stoffels	4,020,000	2,010,000	670,000	6,700,000

In the table below, we show the number of shares of PSUs, options, and RSUs granted. We determine the number of shares for each type of long-term incentive by dividing the dollar amount by the fair value per share and rounding to the nearest whole share.

Name	PSUs (#)	Options (#)	RSUs (#)
Fair Value	\$119.433	\$17.976	\$119.433
A. Gorsky	72,101	289,519	12,017
D. Caruso	25,872	85,948	4,312
S. Peterson	28,284	93,959	4,714
J. Duato	31,700	105,307	5,283
P. Stoffels	33,659	111,816	5,610

Details on Long-Term Incentive Fair Values

- **PSU Fair Value:**

- \$119.433 was the estimated grant date fair value used to determine the number of PSUs granted.
- We assumed the estimated grant date fair value per PSU to be equal to the estimated grant date fair value per RSU to determine the number of PSUs, because:
 - The RSU fair value equals the value of a PSU at 100% of target.
 - The fair values for the portions of the PSU award tied to the sales goals for the second and third years of the performance period are determined at the beginning of the second and third years when the sales goals for those years are set.

- **Option Fair Value:**

- \$17.976 was the grant date fair value used to determine the number of options granted.
- \$129.51 was the option exercise price based on the average of the high and low prices of our common stock on the NYSE on the grant date.
- We used the Black-Scholes option valuation model to calculate the grant date fair value with the following assumptions:
 - 15.77% volatility based on a blended rate of historical average volatility and implied volatility based on at-the-money traded Johnson & Johnson stock options with a life of two years.
 - 2.70% dividend yield.
 - 2.77% risk-free interest rate based on a U.S. Treasury rate of seven years.
 - 7-year option life.

- **RSU Fair Value:**

- \$119.433 was the grant date fair value used to determine the number of RSUs granted.
- We determined the grant date fair value for the RSU awards based on the average of the high and low prices of our common stock on the NYSE on the grant date (\$129.51) discounted by an expected dividend yield of 2.70% since dividends are not paid on the RSUs prior to vesting.

2018 Salary Rates

We do not guarantee annual salary increases and they are not automatic. The Board and Committee reviewed: performance, market data, responsibilities, and experience in determining the base salary rates for our named executive officers. Based on these factors, the Board and Committee adjusted Mr. Gorsky's salary rate for 2018 by 3.1%, adjusted Mr. Duato's salary rate by 4.3%, and did not change the salary rates for the other named executive officers.

The following table shows the annual base salary rate approved for each named executive officer. The annual base salary rates are all effective as of February 26, 2018.

Name	2017 Base Salary Rate (\$)	2018 Base Salary Rate (\$)
A. Gorsky	\$1,600,000	\$1,650,000
D. Caruso	936,800	936,800
S. Peterson	1,072,050	1,072,050
J. Duato	901,300	940,000
P. Stoffels	1,178,300	1,178,300

2017 UPDATE ON PERFORMANCE OF PERFORMANCE SHARE UNIT AWARDS VERSUS GOALS

In 2017, we completed the first year of the PSU performance period for our 2017-2019 awards, the second year of the PSU performance period for our 2016-2018 awards, and the third year of the PSU performance period for our 2015-2017 awards.

Performance Share Units Earned to Date

In the table below, we show the PSUs earned to date highlighting the contribution of the performance periods completed in 2017. We determine the number of PSUs earned based on our adjusted operational EPS and relative Total Shareholder Return (TSR) performance at the end of the 3-year performance period. We pay out earned PSUs at the end of the 3-year performance period.

PSU Performance versus Goals for Performance Periods Completed in 2017

Level	2017 Operational Sales Goals		2015 - 2017 Cumulative Adjusted Operational EPS Goal		2015 - 2017 Relative TSR Goal	
	Operational Sales (\$ Millions)	PSUs Earned (% of target)	Cum. Adj. Op. EPS Goal	PSUs Earned (% of target)	Relative TSR Goal	PSUs Earned (% of target)
Maximum	\$78,910	200%	\$22.72	200%	10.0 % points	200%
Target	75,150	100	20.65	100	0.0 % points	100
Threshold	71,390	50	18.58	50	(10.0) % points	50
<Threshold	< 71,390	0	< 18.58	0	< (10.0) % points	0
Result	\$74,771	95.0%	\$21.51	141.5%	6.0 % points	160.0%

Note: Operational sales and cumulative adjusted operational EPS are non-GAAP measures. See page 54 for details.

If performance falls between threshold and target or between target and maximum, we determine the percentage of target earned using interpolation. If performance is below threshold for a goal, the percentage of target earned for that goal is 0%. If TSR is negative, the percentage of target earned based on TSR performance would be capped at 100%.

Our PSU Goal Setting Process

Our PSU goals support our long-term objectives to grow sales faster than our competitors and grow earnings faster than sales. Sales growth drives quality EPS growth and quality EPS growth drives TSR growth, all of which drive shareholder value creation.

During the first quarter of the year, the Committee establishes the goals for the next PSU award 3-year cycle. It reviews the company's performance against the PSU goals on a quarterly basis. Following year-end, the Committee certifies the result for the year's operational sales performance and certifies the EPS and TSR results for the completed 3-year award cycle.

Our PSU goals are based on our long-term strategic plan and take into account our product portfolio and pipeline, anticipated healthcare market growth and other external factors, including the competitive landscape. The sales goals and first-year EPS goal are also set to align with the annual guidance provided to the investment community. The 3-year TSR goal is set at meeting the performance of our Competitor Composite Peer Group. See page 62 for more information on our Competitor Composite Peer Group.

Our annual operational sales goals are based on actual sales from the prior year and then aligned to the company's annual operational sales growth guidance. Currency had a negative impact of approximately \$0.9 billion on the 2016 sales base used to set the 2017 operational sales growth goal. The following table shows the 2016 operational and reported sales, the 2016 impact of currency, and the 2017 operational sales goal.

	(\$ Millions)

SHAREHOLDER OUTREACH AND OUR COMPENSATION PROGRAM

In 2017, we held an annual advisory vote to approve named executive officer compensation, commonly known as “Say on Pay”. Since 2013, 93% or more of the votes cast voted in favor of our executive compensation program as disclosed in our Proxy Statements. We believe that this continued strong support for the named executive officer compensation resulted from our direct engagement with our shareholders and the changes we made to our executive compensation program over the past several years.

We regularly consider the feedback from our shareholders and we continue to evaluate our executive compensation program. During 2017, we continued our shareholder outreach on our executive compensation program. Our Lead Director and members of senior management had discussions with a diverse mix of U.S. and international institutional shareholders on our executive compensation program. We describe our shareholder engagement, feedback, and our responses starting on page 23 (under “Shareholder Engagement”).

Change in 2017

We increased the weighting of performance share units for our executive officers based on our shareholders' feedback, our competitive benchmarking, and to increase the focus on our long-term performance. Our 2018 long-term incentive grant based on 2017 performance reflects the change in mix as follows:

Executive Compensation Philosophy

KEY FEATURES OF OUR EXECUTIVE COMPENSATION PROGRAM

We believe that our executive compensation program includes key features that align the interests of the named executive officers with our shareholders and does not include features that could misalign their interests.

GUIDING PRINCIPLES

We design our executive compensation programs to achieve our goals of attracting, developing, and retaining global business leaders who can drive financial and strategic growth objectives and build long-term shareholder value. We use the following guiding principles to design our compensation programs:

- **Competitiveness:** We compare our practices against appropriate peer companies that are of similar size and complexity, so we can continue to attract, retain, and motivate high-performing executives.
- **Pay for Performance:** We tie annual bonuses and grants of long-term incentives to performance, including the performance of: our company, the individual's business unit or function, and the individual.
- **Accountability for Short-Term and Long-Term Performance:** We structure performance-based compensation to reward an appropriate balance of short-term and long-term financial and strategic business results, with an emphasis on managing the business for long-term results.

Our Board is responsible for oversight of risk management (including product development, supply chain, and quality risks) as described under "Risk Oversight" on pages 25 and 26. Our compensation program's emphasis on long-term value helps to reduce the possibility that our executives make excessively risky business decisions that could maximize short-term results at the expense of long-term value.

- **Alignment to Shareholders' Interests:** We structure performance-based compensation to align the interests of our named executive officers with the long-term interests of our shareholders.

Components of Executive Compensation

BASE SALARY, ANNUAL PERFORMANCE BONUS, AND LONG-TERM INCENTIVES

Long-Term Incentives

In the table below, we describe the forms of long-term incentive we use for our named executive officers, their weighting, performance periods, how the payouts are determined and why we use them.

Long-Term Incentive Vesting and Treatment upon Termination

Our long-term incentives vest 100% on the third anniversary of the grant date. In addition, we do not pay out our PSUs until we determine the percent of target PSUs that have been earned based on performance.

The treatment of our long-term incentives upon termination varies depending on the termination circumstances as follows:

Termination	Eligibility	Eligible Named Executive Officers	Voluntary Termination	Involuntary Termination Without Cause	Involuntary Termination with Cause	Death	Disability
Qualifying Separation	<ul style="list-style-type: none"> Termination of employment at age 62 or later, or Termination of employment after attainment of age 55 and at least 10 years of service with at least 5 years of consecutive service immediately before termination of employment. 	Gorsky Caruso Duato Stoffels	<ul style="list-style-type: none"> Grants within 6 months prior to termination would be forfeited. Other equity awards would become vested on their normal vesting dates. Options would remain exercisable for their remaining terms. Accelerated PSUs would be paid out at 100% of target with a "top up" at the end of the performance period if the payout exceeds target. 	
Non-Qualifying Separation (age 55-61)	<ul style="list-style-type: none"> Termination of employment after attainment of age 55, but before age 62 and without meeting the service requirements for Qualifying Separation. 	Peterson	<ul style="list-style-type: none"> All unvested equity incentives would be forfeited. Vested options would remain exercisable for up to three years. 				
Non-Qualifying Separation (Under age 55)	<ul style="list-style-type: none"> Termination of employment before attainment of age 55. 		<ul style="list-style-type: none"> All unvested equity incentives would be forfeited. Vested options would remain exercisable for up to three months. 				

Changes for Long-Term Incentives Granted in 2018

- **Non-Competition and Non-Solicitation:** Long-term incentive awards granted in 2018 are subject to enhanced forfeiture and repayment provisions if an employee violates non-competition or non-solicitation agreements as follows:

Competition with the Company	Impact on Long-Term Incentive Awards
<ul style="list-style-type: none"> Violating the non-competition provisions of the award agreement during employment or within 18 months of termination. Violating any other non-competition or non-solicitation agreement an employee has with the company. 	<ul style="list-style-type: none"> Forfeit vested and unvested PSUs, options, and RSUs. Repay any PSUs or RSUs vested or options exercised within the 12 months prior to the violation.

- **Involuntary Termination due to Specified Divestiture or Reduction in Force:** Long-term incentive awards granted in 2018 are pro-rated in the event of a Specified Divestiture or Reduction in Force as follows:
 - **Pro-ration:** Awards would be prorated in proportion to the time worked during the vesting period.
 - **Vesting:** PSU and RSU awards would become available on their normal vesting dates. Stock option vesting would be accelerated as of the date of termination and the options would remain exercisable for up to three months.
 - **Coordination with Qualifying Separations:** If an employee's termination is also a Qualifying Separation, the employee's awards would receive the better of the Qualifying Separation or the pro-ration treatments.
 - **Specified Divestiture:** A Specified Divestiture is a divestiture where the acquirer does not replace the awards that would be forfeited.
 - **Reduction in Force:** A Reduction in Force is a termination of employment due to position elimination or plant closing.

EXECUTIVE PERQUISITES & OTHER BENEFITS

Our named executive officers participate in the same employee benefits provided to all other non-union U.S. employees. In addition, they participate in the following benefits and perquisites:

- **Executive Life Insurance:** Effective January 2015, we closed this program to new participants. We grandfathered prior participants. Messrs. Gorsky, Caruso, and Stoffels participated in the program in 2017.
- **Personal Use of Company Aircraft and Cars:** Our named executive officers can use company aircraft for limited personal travel and company cars and drivers for commutation and other personal transportation. These perquisites are intended to minimize distractions and ensure the safety and productivity of our executives.
- **Home Security:** We reimburse limited home security system related fees.

We detail the executive life insurance premiums paid, values of personal use of company aircraft and cars, and home security related costs in the perquisites and other personal benefits table on page 72. Our named executive officers pay the income taxes due on the value of these benefits and perquisites.

COMPENSATION TARGET SETTING PROCESS AND PAY POSITION

Before each year begins, we set compensation targets to ensure that we can compete for talent and to maintain internal equity among positions with similar responsibilities. We conduct an annual review of publicly available information and executive compensation surveys to determine current pay levels among the Executive Peer Group. The Committee reviews market data to understand how our target pay levels compare to benchmark positions. It does not target total compensation to a specific percentile of the Executive Peer Group.

2017 PAY MIX AT TARGET

Our pay mix at target for our named executive officers is a result of our compensation targets that emphasize long-term versus short-term compensation.

Peer Groups for Pay and Performance

We use two peer groups for executive compensation:

- **Executive Peer Group:** We use the Executive Peer Group to assess the competitiveness of the compensation of our named executive officers.
- **Competitor Composite Peer Group:** We use the Competitor Composite Peer Group to evaluate the relative performance of our company.

As described below, the two peer groups vary because executive compensation levels and practices are influenced by business complexity and company size. Most of our business competitors are smaller than Johnson & Johnson or even each of our individual businesses.

EXECUTIVE PEER GROUP

The Committee compares our executive compensation levels and practices to those of the Executive Peer Group companies. It consists of companies that generally: are similar to Johnson & Johnson's size and scope; have executive positions similar to ours; and compete with us for executive talent. The Committee reviews the composition of the Executive Peer Group annually.

We compare our salaries, annual performance bonuses, long-term incentives, and total direct compensation to the Executive Peer Group companies. We also compare our benefits, perquisites and other compensation to the Executive Peer Group.

We do not include non-U.S. companies because comparable compensation data for the named executive officers is not available. We also do not include companies in industries whose compensation programs are not comparable to our programs, such as the financial services or oil and gas industries.

The following table lists the 2017 Executive Peer Group companies, their business characteristics, and Johnson & Johnson's rankings among these companies. Each company's figures are for the most recent four fiscal quarters. Market capitalization is as of December 31, 2017. Johnson & Johnson ranks in the top quartile of the peers for revenue and market capitalization.

COMPETITOR COMPOSITE PEER GROUP

The Committee compares overall company performance to the weighted performance of the Competitor Composite Peer Group companies. For example, when we set the sales goals for our businesses, we compare the sales of our individual businesses to the total sales of their industry competitors. For the TSR component of our PSUs, we weight the TSR within the three groups by market capitalization and weight the three groups using our sales mix each year. We include each of the peer companies in only one of the groups for the TSR comparison.

These companies compete with one, or more, of our three businesses. We evaluate the group on an ongoing basis and update it as necessary. We select the companies based on the following criteria and financial metrics:

- Product Relevance
- Financial Comparison: Sales growth, net income growth and margin, EPS growth, and TSR
- Global Presence

The following table lists the 2017 Competitor Composite Peer Group companies by business.

Pharmaceuticals	Medical Devices	Consumer
<ul style="list-style-type: none"> • AbbVie Inc. • Amgen Inc. • AstraZeneca plc • Bristol-Myers Squibb Company • Eli Lilly and Company • GlaxoSmithKline plc • Merck & Co., Inc. • Novartis AG • Pfizer Inc. • Roche Holding AG (Pharm Rx only) • Sanofi SA 	<ul style="list-style-type: none"> • Abbott Laboratories • Boston Scientific Corporation • C. Effective in 2017, we included the financial performance of Abbott Laboratories as a whole in our Medical Devices composite in order to better reflect the industries in which we compete. Previously, we had only included its vascular and diabetes businesses.

Effective in 2018, C. R. Bard, Inc. has been removed from the Competitor Composite Peer Group, and Becton, Dickinson and Company has been added.

Compensation Decision Process

IMPORTANCE OF CREDO VALUES IN ASSESSING PERFORMANCE

Since 1943, the Johnson & Johnson Credo has guided us in fulfilling our responsibilities to our customers, employees, communities, and shareholders. In assessing our named executive officers' contributions to Johnson & Johnson's performance, the Committee not only looks to results-oriented measures of performance, but also considers how those results were achieved. It considers whether the decisions and actions leading to the results were consistent with the values embodied in Our Credo and the long-term impact of their decisions. Credo-based behavior is not something that can be precisely measured. Thus, there is no formula for how Credo-based behavior can, or will, impact an executive's compensation. The Committee and the Chairman/CEO use their judgment and experience to evaluate whether an executive's actions were aligned with our Credo values.

ASSESSING "THE WHAT" AND "THE HOW"

We evaluate the performance of our named executive officers based on what objectives they have accomplished and how they have accomplished them.

- **The "What":** We evaluate each of them against financial and strategic goals for the company and for the business or function that they lead.
- **The "How":** We also consider how they accomplished their goals. This includes whether the executive achieves business results in a manner that is consistent with the values embodied in Our Credo.

During the first quarter:

- The Committee reviews the financial and strategic goals for the company and each of the businesses for the current year.
- The Chairman/CEO provides his assessment to the Committee of "the what" and "the how" for each of the other named executive officers for the prior year.
- The independent members of the Board of Directors evaluate "the what" and "the how" for the Chairman/CEO for the prior year.

ALIGNING COMPENSATION TO "THE WHAT" AND "THE HOW"

An individual employee can earn from 0% to 200% of the applicable target for annual performance bonuses and long-term incentives based on his or her individual performance on both "the what" and "the how". This broad range allows for meaningful differentiation based on performance.

The Committee determines annual performance bonuses, long-term incentive awards and salary rates on a component-by-component and total direct compensation basis. The Committee also compares the position of actual compensation for the prior year and target compensation for the current year to Executive Peer Group data.

The independent directors (in the case of the Chairman/CEO) and the Committee (in the case of the other named executive officers) use their judgment and experience to determine bonuses, long-term incentives, and salary rates. Performance against goals is the most significant input in determining compensation levels. However, it does not determine them in a formulaic manner. In addition, we do not consider an employee's previous long-term incentive awards and total equity ownership when making annual long-term incentive awards.

Governance of Executive Compensation

The Committee is responsible for the executive compensation program design and decision-making process. It solicits input from the independent members of the Board of Directors, the Chairman/CEO, other members of management, and its independent compensation consultant, to assist it with its responsibilities.

The Committee has retained an independent compensation consultant from Frederic W. Cook & Co., Inc. (FWC) to advise it on executive compensation matters. The Committee has sole authority to negotiate the terms of service, including all fees paid to FWC.

We summarize the roles of each of the key participants in the executive compensation decision-making process in the table below.

Participant	Role
Compensation & Benefits Committee	<ul style="list-style-type: none"> • Acts on behalf of the Board by setting the principles that guide the design of our compensation and benefits programs • Sets the executive compensation philosophy and composition of the Executive Peer Group • Approves the compensation target levels • Sets compensation programs and principles that are designed to link executive pay with company and individual performance • Recommends to the Board the Chairman/CEO's compensation • Reviews and approves compensation decisions recommended by the Chairman/CEO for each of the other named executive officers • Reviews the eligibility criteria and award guidelines for the corporate-wide compensation and benefits programs in which the named executive officers participate
Independent Members of the Board of Directors	<ul style="list-style-type: none"> • Participate in the performance assessment process for the Chairman/CEO • Approve the Chairman/CEO's compensation
Chairman/CEO	<ul style="list-style-type: none"> • Reviews and presents to the Committee the performance assessments and compensation recommendations for each of the other named executive officers
Independent Compensation Consultant	<ul style="list-style-type: none"> • Attends all Committee meetings, at the request of the Committee • Advises the Committee on market trends, regulatory issues and developments and how they may impact our executive compensation programs • Reviews the compensation strategy and executive compensation programs for alignment with our strategic business objectives • Advises on the design of executive compensation programs to ensure the linkage between pay and performance • Provides market data analyses to the Committee • Advises the Committee on setting the Chairman/CEO's pay • Reviews the annual compensation of the other named executive officers as recommended by the Chairman/CEO

INDEPENDENCE OF COMPENSATION CONSULTANT

The Committee determined that FWC's service as its independent compensation consultant did not raise any conflict of interest concerns. The Committee considered the following factors, among others, when assessing the independence of its compensation consultant:

- FWC does not provide any other services to the company and reports directly to the Committee.
- FWC has in place policies and procedures to prevent conflicts of interest.
- No member of the FWC consulting team serving the Committee has a business or personal relationship with any member of the Committee or any executive officer of the company.
- Neither FWC nor any principal of FWC owns any shares of our common stock.
- The amount of fees paid to FWC is less than 1% of FWC's total consulting income.

Additional Information Concerning Executive Compensation

USE OF TALLY SHEETS

The Committee reviews tally sheets, prepared by management and reviewed by the Committee's independent compensation consultant for each of our named executive officers. These tally sheets include all the company's obligations for compensation and benefits under hypothetical termination scenarios. The Committee does not use the tally sheets to determine the various elements of compensation or the actual amounts of compensation to be approved, but instead uses the tally sheets to evaluate the company's obligations under the plans.

LIMITED EMPLOYMENT ARRANGEMENTS AND AGREEMENTS

Our Severance Pay Plan provides benefits to certain full-time U.S. employees who are involuntarily terminated. We provide two weeks base salary for each year of service, with guaranteed minimums based on an employee's level. The minimum for our named executive officers is 52 weeks of base salary. We pay severance according to our normal payroll cycle. We do not pay severance as a lump-sum payment.

We provide Dr. Stoffels an annual stipend of \$320,000 to assist him in the payment of foreign taxes. While serving as a member of the Executive Committee, he is considered a U.S. employee even though he is a non-resident of the United States. As a result, he is subject to both U.S. taxation and foreign taxation. He does not receive any other tax equalization assistance. The Committee reviews the stipend annually and can terminate it at any time. We do not have employment arrangements or agreements with any of our other named executive officers.

STOCK OWNERSHIP GUIDELINES FOR NAMED EXECUTIVE OFFICERS

We require our named executive officers to own our company's stock to further align their interests with our shareholders' interests. They must meet the following requirements:

Name	Stock Ownership Guideline as a Multiple of Base Salary	2017 Compliance with Stock Ownership Guidelines?	Ownership Threshold Met? ⁽¹⁾
A. Gorsky	6x	Yes	Yes
D. Caruso	3x	Yes	Yes
P. Stoffels	3x	Yes	Yes
S. Peterson	3x	Yes	Yes
J. Duato	3x	Yes	Yes

⁽¹⁾ Executive Officers have five years after first becoming subject to the guidelines to achieve the required ownership thresholds.

We do not count shares underlying stock options or unearned PSUs as owned shares for these guidelines. A named executive officer cannot sell the after-tax shares received from long-term incentives until his or her ownership threshold is met.

The Nominating & Corporate Governance Committee of the Board monitors compliance with these guidelines on an annual basis. Our hedging policy prohibits named executive officers from transacting in derivative instruments linked to the performance of the company's securities.

EXECUTIVE COMPENSATION RECOUPMENT POLICY

The Board can recoup all or part of any compensation paid to an executive officer in the event of a material restatement of the company's financial results. The Board will consider:

- whether any executive officer received compensation based on the original financial statements because it appeared he or she achieved financial performance targets that in fact were not achieved based on the restatement; and
- the accountability of any executive officer whose acts or omissions were responsible, in whole or in part, for the events that led to the restatement and whether such actions or omissions constituted misconduct.

The Board can recoup compensation from senior executives in the event of significant misconduct resulting in a violation of a significant company policy, law, or regulation relating to manufacturing, sales or marketing of products that causes material harm to Johnson & Johnson.

The compensation recoupment policies are available at www.investor.jnj.com/gov/compensation-recoupment-policy.cfm.

TAX IMPACT ON COMPENSATION

We consider objectives such as attracting, retaining and motivating leaders when we design our executive compensation programs. We also consider the tax-deductibility of compensation, but it is not our sole consideration. Due to changes in U.S. tax law as a part of the tax reform act, the opportunity to design programs that are fully tax-deductible for our named executive officers has effectively been eliminated. Therefore, we believe that tax-deductibility will have less of an impact on our program design in the future.

For federal income taxes, compensation is an expense that is fully tax-deductible for almost all our employees. Our named executive officers are treated differently. Their pay above \$1 million is not tax-deductible.

In 2017 and prior years, all compensation paid to the CFO and any compensation paid to other named executive officers that was considered performance-based compensation was fully tax-deductible. These exceptions are not available beginning in 2018.

All the compensation that we paid to our CFO in 2017 was fully tax-deductible. We believe that all the compensation we paid to our other named executive officers in 2017 was also tax-deductible except for the following:

- Salary amounts over \$1 million
- Compensation that did not qualify for the performance-based compensation exception:
 - The value of restricted share units vested in 2017
 - Dividend equivalents paid on Certificates of Long-Term Compensation (CLCs) and Certificates of Long-Term Performance (CLPs) that were granted after 1992
 - Certain perquisites and other benefits

In 2018 and future years, we expect that earnings from stock options and PSUs granted prior to 2018 (and certain other arrangements) will continue to be tax-deductible because they are considered grandfathered under the tax reform legislation. However, we are waiting for additional guidance on the tax reform act and these amounts may not be tax-deductible. We expect that other compensation paid to our named executive officers above \$1 million will not be tax-deductible.

2017 COMPENSATION DECISIONS FOR 2016 PERFORMANCE

The following compensation figures included in this year's Summary Compensation Table were granted to the named executive officers in February 2017 for performance in 2016:

- 2017 PSU and RSU awards included in the "Stock Awards" column
- The 2017 option award included in the "Option Awards" column

The decisions regarding these awards were discussed in detail in our 2017 Proxy Statement dated March 15, 2017. For a full understanding of these decisions, please refer to the sections of our 2017 Proxy Statement entitled "Compensation Discussion and Analysis - CEO Performance and Compensation Decisions" and "Compensation Discussion and Analysis - 2017 Compensation Decisions for 2016 Performance".

Executive Compensation Tables

Summary Compensation Table

In the table below, we show the compensation of our Chief Executive Officer, Chief Financial Officer and the three other most highly compensated executive officers for 2017. We also show their compensation for 2016 and 2015 if they were named in the 2017 and 2016 Proxy Statements. For a complete understanding of the table, please read the descriptions of each column that follow the table.

Note on Changes in Pension Values

On page 71 we show the impact of changes in mortality and interest rate assumptions on the 2017 change in pension values included in column G. In 2017, these changes in assumptions added approximately \$2.9 million to our Chief Executive Officer's total compensation. This is 98% of the 2017-2018 year-on-year difference in his total compensation.

Salary (Column C)

Column C includes the base salaries paid for the year.

U.S. salaried employees are paid on a bi-weekly schedule. In 2015, there were 27 pay periods rather than the usual 26 pay periods. So, salaries earned in 2015 were higher than each executive's annualized base salary due to the additional pay period.

Stock Awards (Column D)

Column D includes the grant date fair value of Performance Share Unit (PSU) and Restricted Share Unit (RSU) awards. See "Grants of Plan-Based Awards" on page 73 for details on 2017.

PSUs are considered granted when the performance goals are approved (according to US accounting rules). Since we use 3, 1-year sales goals, 7/9^{ths} of the 2017 award and 1/9th of the prior two years' awards are considered granted in 2017 as shown in the following table.

PSU Award	Fraction of Award Considered Granted in 2017			
	2017 Operational Sales	2017-2019 Cumulative Adjusted Operational EPS	2017-2019 Relative TSR	Total

Option Awards (Column E)

Column E includes the grant date fair value of stock option awards. See “Grants of Plan-Based Awards” on page 73 for details on 2017.

Non-Equity Incentive Plan Compensation (Column F)

Column F includes the annual performance bonus, Certificates of Long-Term Performance (CLPs) that vested, and dividend equivalents received on vested Certificates of Long-Term Compensation (CLCs) and CLPs.

- **Annual Performance Bonuses:** The Board and Committee approved the annual performance bonuses after reviewing performance for the year. We determine the size of the bonuses and pay them out in the first quarter of the year after the performance year.
- **CLCs and CLPs:** We stopped granting CLCs and CLPs in 2012. These cash-based long-term incentives have all vested and will be paid out in accordance with their original terms. The values of CLCs and CLPs are included in several tables in this Proxy Statement. The:
 - **Non-Equity Incentive Plan Compensation** column includes the value when they vested and the dividend equivalents paid on vested CLCs and CLPs.
 - **Change in Pension Value and Non-Qualified Deferred Compensation Earnings** column includes the annual change in value of vested CLCs and CLPs, but only to extent that the unit values grow at a rate that exceeds a reference rate of return.
 - **Non-Qualified Deferred Compensation table** on page 81 includes the value of vested CLCs and CLPs that have not been paid out.

The following table details the amounts included in column F.

Change in Pension Value and Non-Qualified Deferred Compensation Earnings (Column G)

Column G includes the increase in the present value of the accrued pension benefit and the above-reference-rate non-qualified deferred compensation earnings.

Change in Pension Value

The change in pension present value is not a current cash payment. The pensions are only paid after retirement.

- **Impact of Service, Pay, and Age:** The following factors increased the present values:
 - **Service:** An additional year of completed service was included in the calculation of benefits.
 - **Five-Year Average Pay:** The five-year average pay increased since the previous fiscal year-end.
 - **Age:** Each executive is one year closer to the age when we assume the pension payments will begin.
- **Impact of Changes in Assumptions:** The change in present value is highly sensitive to changes in mortality and interest rate assumptions which can increase or decrease the values. The following table details the changes in actuarial assumptions and their net effect on the change in pension value.

Effect of Change in Actuarial Assumptions on Pension Present Value			
Year	Mortality Table	Discount Rate	Net Effect of Changes on Pension Present Value
2017	RP-2014 White Collar Table, Generational Mortality Projection with Scale MMP-2016	3.74%	Increase
2016	RP-2014 Table, Generational Mortality Projection	4.41%	Increase
2015	RP-2014 Table, Generational Mortality Projection	4.73%	Decrease
2014	RP-2014 Table, Generational Mortality Projection	4.28%	N.A.

See "Pension Benefits" on page 80 for details on the pension. See Note 10 to the Consolidated Financial Statements of the 2017 Form 10-K for details on the discount rate.

In the table below, we show the 2017 changes in pension value and the impacts of:

- Service, pay and age
- Changes in assumptions

Change in Pension Value			
Name	Impact of Service, Pay, and Age (\$)	Impact of Changes in Assumptions (\$)	Total Change in Pension Value (\$)

P. Stoffels	1,648,000	1,526,000	3,174,000

Above-Reference-Rate Non-Qualified Deferred Compensation Earnings

The above-reference-rate returns on vested CLCs and CLPs are not paid in the current year. They are deferred.

- The change in the values of the CLCs and CLPs depend on our long-term operational performance.
- We use 120% of the December applicable federal long-term interest rate (AFR) as the reference rate.
- Negative figures are not included in the Summary Compensation Table (according to the SEC's rules).

The following table details the calculation of the above-reference-rate returns on CLCs and CLPs. See page 82 for "Details on CLC and CLP Unit Values".

Above-Reference-Rate Return	CLC	CLP
Beginning of Year Unit Value	\$46.55	\$5.25
End of Year Unit Value	\$48.78	\$5.49

- We value perquisites and other personal benefits based on the incremental cost to the company.
- We calculate the incremental cost for personal use of company aircraft as the sum of the cost of trip-related crew hotels and meals, in-flight food and beverages, landing and ground handling fees, hangar or aircraft parking costs, fuel costs based on the average annual cost of fuel per mile flown, and other smaller variable costs. Fixed costs such as aircraft purchase costs, maintenance not related to personal trips, and flight crew salaries are not included.
- We calculate the incremental cost for company cars and drivers for commutation and other personal transportation as the sum of the cost of fuel, driver overtime fees, and other smaller variable costs. Fixed costs such as car purchase costs, maintenance not related to personal trips, and driver salaries are not included.
- Named executive officers are taxed on the imputed income attributable to their personal use of company aircraft and cars and do not receive tax assistance from us with respect to these amounts.
- **Tax Reimbursements:** In 2013, the Committee discontinued all non-relocation related tax reimbursement for executive officers.
- **Stipend:** We provide Dr. Stoffels an annual stipend of \$320,000 to assist him in the payment of foreign taxes. While serving as a member of the Executive Committee, he is considered a U.S. employee even though he is a non-resident of the United States. As a result, he is subject to both U.S. taxation and foreign taxation. He does not receive any other tax equalization assistance.

Estimated Future Payouts Under Non-Equity Incentive Plan Awards (Columns D through F)

Columns D through F include the threshold, target, and maximum annual performance bonus amounts for 2017 performance. The Board and Committee considered this potential range when they determined the actual annual performance bonuses (included in column F of the "Summary Compensation Table" on page 68).

Estimated Future Payouts Under Equity Incentive Plan Awards (Columns G through I)

Columns G through I include the threshold, target, and maximum number of PSUs that were considered granted in 2017. See page 68 for detail on the awards that were considered granted according to U.S. accounting rules.

All Other Stock Awards (Column J)

Column J includes the number of RSUs awarded in February 2017 based on 2016 performance. In addition, it includes the special retention awards the Committee granted to Ms. Peterson and Mr. Duato of 70,733 RSUs, each with a fair value on the grant date of \$7.5 million.

All Other Option Awards (Columns K through M)

Columns K through M include: the number of stock options awarded in February 2017 based on 2016 performance, their exercise price, and the closing stock price on the date of grant.

The exercise price equals the average of the high and low stock prices on the NYSE on the grant date. The closing price on the grant date was \$0.21 higher than the exercise price.

Grant Date Fair Value of Stock and Option Awards (Column N)

Column N includes the grant date fair values of PSUs, RSUs, and stock option awards granted in 2017. We include the grant date fair values of the stock awards and option awards in columns D and E of the Summary Compensation Table on page 68.

Details on 2017 Long-Term Incentive Grant Date Fair Values

- **Assumptions used for PSUs, RSUs, and options:** We used the same grant date, common stock fair market value and dividend yield assumptions in calculating the fair values of the PSUs, RSUs, and options as shown in the table below.

Assumptions used in PSUs, RSUs, and Option Fair Value Calculations	
Grant Date	2/13/2017
Common Stock Fair Market Value (average of the high and low prices on the NYSE)	\$115.67
Dividend yield	2.90%

- **Fair values of RSUs and PSUs tied to 2017 operational sales and 2017-2019 EPS:** We calculated the fair value of RSUs and PSUs tied to 2017 operational sales and 2017-2019 EPS based on the common stock fair market value discounted by the expected dividend yield since dividends are not paid prior to vesting. The discount is greater on the awards with more time until vesting since those awards do not receive dividends for a longer period than the awards with less time remaining in the vesting period.
- **PSUs:**
 - **2017-2019 PSUs:** We calculated the fair value of the 2017-2019 PSUs using the weighted average of the fair values of each component of the award that was considered granted in 2017 as follows:

2017 – 2019 PSU Fair Value		
Performance Measures	Weight	Fair Value
2017 Operational Sales	1/9 th	\$106.032
2017-2019 EPS	3/9 ^{ths}	\$106.032
2017-2019 Relative TSR	3/9 ^{ths}	\$124.933
Weighted Average		\$114.132

- **2017 Operational Sales & 2017-2019 EPS:** \$106.032 was the fair value of the PSUs tied to 2017 operational sales and 2017-2019 EPS.
 - **2017-2019 Relative TSR:** \$124.933 was the fair value of the PSUs tied to relative TSR. An independent third party calculated it using a Monte Carlo valuation.
- **2016-2018 PSUs:** \$109.152 was the fair value of the PSUs tied to 2017 operational sales.
- **2015-2017 PSUs:** \$112.399 was the fair value of the PSUs tied to 2017 operational sales.
- **RSUs:** \$106.032 was the fair value of the RSUs.
- **Options:** \$13.383 was fair value of the options. We calculated the option fair value using the Black-Scholes option valuation model using the additional assumptions in the table below.

2017 Stock Option Fair Value Assumptions	
Exercise Price	\$115.67
Risk Free Rate (Determined based on U.S. Treasury rate of seven years)	2.25%
Expected Volatility (Calculated using blended historical average volatility and implied volatility on at-the-money, 2-year, traded stock options)	15.30%
Expected Life (Calculated based on historical data)	7 yrs.

Market Value of Shares or Units of Stock That Have Not Vested (Columns I and K)

We calculated the market values of unvested PSUs and RSUs included in columns I and K using the closing price of our common stock on the NYSE on December 29, 2017, which was the last business day of fiscal 2017, of \$139.72.

Option Exercises and Stock Vested

In the table below, we show how many stock options each executive exercised in 2017 and the value received from exercising them. We also show how many PSUs and RSUs vested in 2017 and their value when they vested.

Pension Benefits

In the table below, we show the present value of pension benefits as of year-end 2017. For a complete understanding of the table, please read the description of the pension benefits that follow the table.

Name	Number of Years Credited Service (#)	Normal Retirement Age	Present Value of Accumulated Benefit		
			Salaried Pension Plan (\$)	Excess Pension Plan (\$)	Total (\$)
A. Gorsky	25.41	62	\$1,293,000	\$24,817,000	\$26,110,000
D. Caruso	18.00	62	994,000	8,682,000	9,676,000

J. Duato	28.25	62	1,320,000	10,624,000	11,944,000
P. Stoffels	24.33	62	1,134,000	10,998,000	12,132,000

We calculated the present values included in the table using the same assumptions we used for the pension liabilities included in our 2017 Annual Report. We used a discount rate of 3.74% and mortality assumptions according to the RP-2014 White Collar table with generational improvements projected according to Scale MMP-2016.

The named executive officers participate in the same defined benefit pension plans provided to other U.S. non-union employees hired before January 1, 2015. We did not make any payments to our named executive officers from our pension plans in 2017.

We describe our U.S. pension formula and pension plans below:

- **U.S. Pension Formula:** Our U.S. pension formula determines a monthly annuity amount payable for life.
 - **Retirement Age:** At age 62 employees can begin receiving unreduced pension payments. At age 55 they can begin receiving reduced pension benefits. If an employee begins receiving his or her pension before age 62, the pension is reduced by 4% per year for each year before age 62.
 - **Monthly Annuity Amount:** We calculate the monthly annuity amount as:
 - (1) Final average earnings multiplied by 1.667%, multiplied by years of service prior to 2005, plus
 - (2) Final average earnings multiplied by 1.55%, multiplied by years of service after 2004, minus
 - (3) Age 65 Social Security benefits multiplied by 1.429%, multiplied by total years of service.
 - **Final Average Earnings:** Final average earnings is the average of the highest consecutive 60 months out of the last 120 months of pay. Pay includes: base salary, bonus, and dividend equivalents paid or deferred on unvested CLCs for years prior to 2009.
 - **Benefits Paid as an Annuity:** Pension benefits must be taken in the form of an annuity, except the Belgian portion of Dr. Stoffels' benefit which is payable as a lump sum at retirement.
- **Pension Plans:** We pay our U.S. pensions from the Salaried and Excess Pension Plans as follows:
 - **Salaried Pension Plan:** The Salaried Pension Plan applies the U.S. pension formula to pay up to the IRS's covered compensation limit. The limit was \$270,000 in 2017.
 - **Excess Pension Plan:** The Excess Pension Plan uses the U.S. pension formula without applying the IRS pay limits. Its payments are reduced by amounts paid from the Salaried Pension Plan. U.S. non-union employees participate in the Excess Pension Plan if their covered compensation exceeds the IRS limit.
 - **Offset for non-U.S. Pensions:** Because Dr. Stoffels has worked in both Belgium and the U.S., his pension includes benefits from both the U.S. and Belgian Plans. The U.S. portion is calculated using the U.S. formula above for all service and subtracting the amount earned in the Belgian Plan. This treatment of service rendered outside the U.S. applies to all participants in the Salaried Plan who were hired before January 1, 2015 and who earned company service outside the U.S. before joining the U.S. pension plan on, or before, July 1, 2015.

Non-Qualified Deferred Compensation

In the table below, we show our named executive officers' year-end non-tax-qualified compensation deferral plan balances. We also show how much they and the company contributed to the plans and the earnings on the deferred compensation during the year. For a complete understanding of the table, please read the descriptions of the columns that follow the table.

- **No 2017 Withdrawals:** None of the named executive officers received any payments from our non-tax-qualified deferred compensation plans in 2017.
- **Executive Income Deferral Plan:** Our executive officers can defer up to 50% of their base salary and 100% of their performance bonuses under the Executive Income Deferral Plan.
 - **Earnings:** The deferred amounts are credited with earnings equal to the return on: Johnson & Johnson common stock, one-year Treasury Bills, or the investment options within our 401(k) Savings Plan. The participant elects the allocation among these alternatives.

For 2017, the return on our common stock for these participants was 24.88%. None of the named executive officers had amounts allocated to the one-year Treasury Bill alternative in 2017.
 - **Distribution:** Amounts deferred after 2004 are paid on the later of six months after termination or January of the year following termination. Amounts deferred before 2005 can be paid up to 10 years after termination and be paid as a lump sum or in up to 15 annual installments.
- **Excess Savings Plan:** Our 401(k) Savings Plan provides a matching contribution of 4.5% of base salary to employees who contribute at least 6% of base salary. The base salary covered under this plan is limited by the IRS's covered compensation limit. The limit was \$270,000 in 2017. The Excess Savings Plan credits an unfunded account with 4.5% of the amount of the base salary over the IRS limit.
 - **Earnings:** The accounts are credited with earnings equal to the return on the Balanced Fund investment option within our 401(k) Savings Plan. In 2017, the rate of return was 20.31%.
 - **Distribution:** Account balances will be paid out in a lump sum, six months after termination, unless the participant made an irrevocable deferral or installment election before December 15, 2008.

Details on CLC and CLP Unit Values

The following table includes the beginning and end of year CLC and CLP unit values. It also includes the change in unit values during the year.

Unit Values and Change in Values	CLC (\$)	CLP (\$)
Beginning of Year Unit Value	\$46.55	\$5.25
End of Year Unit Value	48.78	5.49
Change in Unit Value	2.23	0.24

- **Impact of 2017 Tax Legislation:** The Board approved amortizing the impact of the 2017 enacted tax legislation on the CLC and CLP values over 8 years consistent with the IRS payment duration (8% per year in years 1 through 5; 15% in year 6; 20% in year 7 and 25% in year 8). If the impact of the tax legislation were not amortized, the 2017 end of year CLC value would have been \$40.65 and the 2017 end of year CLP value would have been \$4.59.

Potential Payments Upon Termination

We pay earned and unpaid compensation to our employees upon termination as described below. In addition, depending upon the circumstances of the termination and the employee's age and years of service, we pay severance, provide continued health benefit coverage, and provide continued vesting in equity incentives as described below. We have no change-in-control benefits.

- **Earned but Unpaid Compensation:** Upon any termination of employment as of year-end 2017, employees would receive their annual performance bonus and vested non-qualified deferred compensation. They would also be entitled to their pension benefits upon retirement. If a named executive officer had terminated as of year-end 2017, he or she would have received his or her:
 - **Earned but unpaid annual performance bonuses for 2017.** An employee must be employed through the end of the year to be eligible for a non-pro-rated bonus. However, in case of involuntary termination for cause, these amounts would be forfeited. See the "Non-Equity Incentive Plan Compensation" table on page 70 for the bonus amounts.
 - **Vested non-qualified deferred compensation balances.** See the "Non-Qualified Deferred Compensation" table on page 81 for the year-end balances.
 - **Pension benefits upon retirement.** See "Pension Benefits" on page 80 for details.
- **Severance, Healthcare Coverage, and Equity Incentives:** In the table below, we show the value of cash severance, continued healthcare coverage, and continued vesting in equity incentives as if the named executive officers had terminated as of year-end 2017 under the circumstances shown below. For a complete understanding of the table please read the descriptions of the types of payments that follow the table.
- **No Change-in-Control Benefits:** We do not have any change-in-control agreements or arrangements in place for any of our named executive officers. In addition, there are no change-in-control provisions in any of our compensation plans or instruments.

Cash Severance

Our Severance Pay Plan provides benefits to certain full-time U.S. employees who are involuntarily terminated. We provide two weeks base salary for each year of service, with guaranteed minimums based on an employee's level. The minimum for our named executive officers is 52 weeks of base salary. We pay severance according to our normal payroll cycle. We do not pay severance as a lump-sum payment.

In the table below, we show how the "Cash Severance" amounts in the preceding table were calculated.

Healthcare Coverage

Upon termination of employment, all non-union U.S. employees receive continued healthcare coverage that varies based upon the termination circumstances. The "Healthcare Coverage" amounts in the table on page 83 are the present values of continued healthcare coverage. The values vary based upon the termination circumstances as follows:

Healthcare Coverage	Eligibility	Eligible Named Executive Officers	Voluntary Termination	Involuntary Termination Without Cause	Involuntary Termination with Cause	Death	Disability
Retiree	Employees age 55 with ten years of service	Gorsky Caruso Duato Stoffels	✓	✓ Begins at the end of the cash severance period	✓	✓ Coverage for Dependents	✓

Active-employee	All Employees	Peterson	No continued coverage	✓ While on severance - up to 52 weeks	No continued coverage	✓ Coverage for Dependents for 6 months	✓ While on Long-term disability

Equity Incentives

The "Equity Incentive" amounts in the table on page 83 are the value of unvested equity incentives as of year-end 2017. The values vary based upon the termination circumstances as described under "Long-Term Incentive Vesting and Treatment upon Termination" on page 59.

The special retention award of 70,733 RSUs granted to Mr. Duato on February 13, 2017 is not eligible for qualifying separation treatment. Therefore, its value is not included in the "voluntary termination" and "involuntary termination without cause" scenarios.

Ratio of the Annual Total Compensation of the Median-Paid Employee to the CEO

The annual total compensation of our median-paid employee on a worldwide basis for 2017 was \$66,000. The annual total compensation of our Chief Executive Officer for 2017 was \$29,802,564. The ratio of the two amounts for 2017 is 452 to 1. For a complete understanding of these amounts, please read the descriptions below.

We used the following methodology and assumptions to calculate the annual total compensation of the median-paid employee:

- We gathered payroll data from 20 countries around the world, which account for 80% of our employees.
- We assumed that employees not included in this database are paid less than the median. This is a conservative assumption. If any of the employees assumed to be below the median were paid higher than the calculated median, the actual median would be higher.
- We calculated the annual total compensation and ranked our employees using their taxable cash earnings, which includes: salary, wages (regular, hourly, overtime, shift differentials), commissions, bonuses, other miscellaneous cash earnings, and the estimated value of the company-provided pension earned during 2017 (using an estimated percentage of salary for each country where we have a company-provided pension).
- We counted down from the top to identify the median-paid employee. At least 50% of our employees have annual total compensation amounts higher than the amount shown in the table.
- We rounded the annual total compensation of the median-paid employee to the nearest thousand dollars.

The annual total compensation of our Chief Executive Officer for 2017 is as reported in the Summary Compensation Table on page 68. The ratio of the Annual Total Compensation of the Median-Paid Employee to the CEO is calculated by dividing the annual total compensation of our Chief Executive Officer by that of our median-paid employee. Because the annual total compensation of the median-paid employee is a conservative estimate (as described above), the pay ratio is also a conservative estimate - the actual ratio could be lower, but not higher.

Audit Committee Report

The Audit Committee reports to and acts on behalf of the Board of Directors of the company by providing oversight of the financial management, internal auditors, independent auditor and financial reporting controls and accounting policies and procedures of the company. The company's management is responsible for preparing the company's financial statements and systems of internal control and the independent auditor is responsible for auditing those financial statements and expressing its opinion as to whether the financial statements present fairly, in all material respects, the financial position, results of operations and cash flows of the company in conformity with generally accepted accounting principles. The Audit Committee is responsible for overseeing the conduct of these activities by the company's management and the independent auditor.

In this context, the Audit Committee has met and held discussions with management and the internal and independent auditors (including private sessions with the Vice President, Internal Audit, the independent auditor, the Chief Financial Officer, and the General Counsel at each Audit Committee meeting). Management represented to the Audit Committee that the company's consolidated financial statements as of and for the fiscal year ended December 31, 2017 were prepared in accordance with generally accepted accounting principles, and the Audit Committee has reviewed and discussed the consolidated financial statements with management and the independent auditor.

The Audit Committee has discussed with the independent auditor matters required to be discussed by the applicable Auditing Standards as periodically amended (including significant accounting policies, alternative accounting treatments and estimates, judgments and uncertainties). In addition, the Audit Committee has received the written disclosures and the letter from the independent auditor required by the applicable requirements of the Public Company Accounting Oversight Board regarding the independent auditor's communications with the Audit Committee concerning independence, and the Audit Committee and the independent auditor have discussed the auditor's independence from the company and its management, including the matters in those written disclosures. Additionally, the Audit Committee considered the non-audit services provided by the independent auditor and the fees and costs billed and expected to be billed by the independent auditor for those services (as shown on page 87 of this Proxy Statement). All of the non-audit services provided by the independent auditor since February 10, 2003, and the fees and costs incurred in connection with those services, have been pre-approved by the Audit Committee in accordance with the Audit and Non-Audit Services Pre-Approval Policy, as adopted by the Audit Committee. (This policy is discussed in further detail on page 88 of this Proxy Statement.) When approving the retention of the independent auditor for these non-audit services, the Audit Committee has considered whether the retention of the independent auditor to provide those services is compatible with maintaining auditor independence.

In reliance on the reviews and discussions with management and the independent auditor referred to above, the Audit Committee believes that the non-audit services provided by the independent auditor are compatible with, and did not impair, auditor independence.

The Audit Committee also has discussed with the company's internal and independent auditors, with and without management present, their evaluations of the company's internal accounting controls and the overall quality of the company's financial reporting.

In further reliance on the reviews and discussions with management and the independent auditor referred to above, the Audit Committee recommended to the Board of Directors on February 21, 2018, and the Board has approved, the inclusion of the audited financial statements in the company's Annual Report on Form 10-K for the fiscal year ended December 31, 2017, for filing with the Securities and Exchange Commission.

Item 3. Ratification of Appointment of Independent Registered Public Accounting Firm

The Audit Committee of the Board of Directors is directly responsible for the appointment, compensation, retention and oversight of the independent registered public accounting firm retained to audit the company's financial statements. The Audit Committee has appointed PricewaterhouseCoopers LLP as the independent registered public accounting firm for the company and its subsidiaries for the fiscal year 2018. Shareholder ratification of the appointment is not required under the laws of the State of New Jersey, but as a matter of good corporate governance, the Board has decided to ascertain the position of the shareholders on the appointment at the Annual Meeting. The affirmative vote of a majority of the votes cast at the meeting is required for ratification. The Audit Committee will reconsider the appointment if it is not ratified.

The Audit Committee oversees the qualifications, independence and performance of the independent auditor and has the ultimate responsibility to appoint, retain, compensate, evaluate and, when appropriate, terminate the independent auditor.

During fiscal years 2017 and 2016, PricewaterhouseCoopers LLP not only acted as the independent registered public accounting firm for the company and its subsidiaries (work related to the integrated audit of our consolidated financial statements and internal control over financial reporting), but also rendered other services on behalf of the company and its subsidiaries.

Rules enacted under the Sarbanes-Oxley Act prohibit an independent auditor from providing certain non-audit services for an audit client. PricewaterhouseCoopers LLP has provided services in accordance with applicable rules and regulations. It is expected that PricewaterhouseCoopers LLP will continue to provide certain accounting, additional audit, tax and other services to the company and its subsidiaries, which are permitted under applicable rules and regulations.

PricewaterhouseCoopers LLP and its predecessors have served as Johnson & Johnson's independent auditor since at least 1920. The Audit Committee believes that this long tenure results in higher quality audit work and greater operational efficiencies by leveraging PricewaterhouseCoopers LLP's deep institutional knowledge of Johnson & Johnson's global operations and businesses, accounting policies and practices, and internal controls. In order to ensure continuing auditor independence, the Audit Committee periodically considers whether there should be a regular rotation of the company's independent registered public accounting firm. In addition, in conjunction with the mandated rotation of the audit firm's lead engagement partner every five years, the Audit Committee and its chairperson are directly involved in the selection of PricewaterhouseCoopers LLP's new lead engagement partner.

The members of the Audit Committee and the Board believe that the continued retention of PricewaterhouseCoopers LLP to serve as the company's independent registered public accounting firm is in the best interests of the company and its shareholders.

The Audit Committee is responsible for the audit fee negotiations associated with the retention of PricewaterhouseCoopers LLP. The table below sets forth the aggregate fees billed or expected to be billed by PricewaterhouseCoopers LLP for 2017 and 2016 for audit and non-audit services (as well as all "out-of-pocket" costs incurred in connection with these services) and are categorized as Audit Fees, Audit-Related Fees, Tax Fees and All Other Fees. The nature of the services provided in each such category is described following the table.

Actual Fees ⁽¹⁾	2017	2016
Audit Fees	\$42,560	\$36,700
Audit-Related Fees	25,560	22,915
Total Audit and Audit-Related Fees	68,120	59,615
Tax Fees	3,080	3,435
All Other Fees	60	132
Total Fees	\$71,260	\$63,182
⁽¹⁾ Dollars in thousands		

Audit Fees – Consists of professional services rendered for the audit of our consolidated financial statements, quarterly reviews, statutory audits, issuance of comfort letters and consents and assistance with, and review of, documents filed with the SEC.

Audit-Related Fees – Consists of assurance and related services related to employee benefit plan audits, due diligence related to mergers and acquisitions, accounting consultation and audits in connection with acquisitions and dispositions, system pre-implementation reviews, internal control reviews, attest services that are not required by statute or regulation, advice as to the preparation of statutory financial statements, and consultations concerning financial accounting and reporting standards.

Tax Fees – Consists of tax compliance (review and preparation of corporate and expatriate tax returns, assistance with tax audits, review of the tax treatments for certain expenses, and transfer pricing documentation for compliance purposes relating to acquisitions), state and local tax planning, and consultations with respect to various domestic and international tax matters.

All Other Fees – Consists of fees not included in the Audit, Audit-Related or Tax categories and includes reviews for compliance with various government regulations relating to the healthcare industry and privacy standards, supply chain operational reviews and risk management reviews and assessments.

Pre-Approval of Audit and Non-Audit Services

Under the Audit and Non-Audit Services Pre-Approval Policy, as adopted by the Audit Committee in 2003, the Audit Committee must pre-approve all audit and non-audit services provided by the independent auditor. The Policy, as described below, sets forth the procedures and conditions for such pre-approval of services to be performed by the independent auditor. The Policy utilizes both a framework of general pre-approval for certain specified services and specific pre-approval for all other services.

Each year, the Audit Committee is asked to pre-approve the engagement of the independent auditor, and the projected fees, for audit services, audit-related services (assurance and related services that are reasonably related to the performance of the auditor's review of the financial statements or that are traditionally performed by the independent auditor) and tax services (such as tax compliance, tax planning and tax advice) for the current year. In addition, the following specific routine and recurring other services also may be pre-approved generally for the current year: audits or reviews of third parties to assess compliance with contracts; risk management reviews and assessments; healthcare compliance reviews; and other regulatory matters and certain projects to evaluate systems security.

The fee amounts approved at such meeting are updated to the extent necessary at the regularly scheduled meetings of the Audit Committee during the year. Additional pre-approval is required if actual fees for any service exceed the originally pre-approved amount by 5%, excluding the impact of currency.

If we want to engage the independent auditor for other services that are not considered subject to general pre-approval as described above, then the Audit Committee must approve such specific engagement, as well as the projected fees. Additional pre-approval is required before any fees can exceed those fees approved for any such specifically-approved services.

If we wish to engage the independent auditor for additional services that have not been generally pre-approved as described above, then such engagement will be presented to the Audit Committee for pre-approval at its next regularly scheduled meeting. If the timing of the project requires an expedited decision, then we may ask the Chairman of the Audit Committee to pre-approve such engagement. Any such pre-approval by the Chairman is then reported to the other Committee members at the next Committee meeting. In any event, pre-approval of any engagement by the Audit Committee or the Chairman of the Audit Committee is required before the independent auditor may commence any engagement.

In 2017, there were no fees paid to PricewaterhouseCoopers under a *de minimis* exception to the rules that waives pre-approval for certain non-audit services.

Representatives of PricewaterhouseCoopers are expected to be present at the Annual Meeting of Shareholders and will be allowed to make a statement if they wish. Additionally, they will be available to respond to appropriate questions from shareholders during the meeting.

The Board of Directors recommends that shareholders vote FOR ratification of the appointment of PricewaterhouseCoopers LLP as our independent registered public accounting firm for fiscal 2018.

Item 4: Shareholder Proposal – Accounting for Litigation and Compliance In Executive Compensation Performance Measures

The following shareholder proposal has been submitted to the company for action at the meeting by The City of Philadelphia Public Employees Retirement System, Two Penn Center Plaza, 16th Floor, Philadelphia, PA 19102-1712, a beneficial owner of in excess of \$2,000 worth of shares of the company's common stock. The affirmative vote of a majority of the shares voted at the meeting is required for approval of the shareholder proposal. The text of the proposal follows:

RESOLVED that shareholders of Johnson & Johnson ("JNJ") urge the Board of Directors to adopt a policy that no financial performance metric shall be adjusted to exclude Legal or Compliance Costs when evaluating performance for purposes of determining the amount or vesting of any senior executive Compensation award. "Legal or Compliance Costs" are expenses or charges associated with any investigation, litigation or enforcement action related to drug manufacturing, sales, marketing or distribution, including legal fees; amounts paid in fines, penalties or damages; and amounts paid in connection with monitoring required by any settlement or judgment of claims of the kind described above. "Incentive Compensation" is compensation paid pursuant to short-term and long-term incentive compensation plans and programs. The policy should be implemented in a way that does not violate any existing contractual obligation of the Company or the terms of any compensation or benefit plan.

SUPPORTING STATEMENT

As JNJ shareholders, we support compensation arrangements that incentivize senior executives to drive growth while safeguarding company operations and reputation over the long-term. JNJ adjusts certain financial metrics when calculating progress on goals for the purposes of awarding incentive compensation. While some adjustments may be appropriate, we believe senior executives should not be insulated from legal risks, particularly on matters of import.

President Trump has recently declared the opioid epidemic a public health emergency. According to pages 79-80 of the Company's 2017 10-K, JNJ has been named in several lawsuits relating to the marketing of opioid pharmaceuticals and has been subpoenaed by other states for similar claims. Attorneys general of 41 states have opened an investigation of opioid makers and distributors that includes JNJ's subsidiary Janssen Pharmaceuticals.

We believe the opioid emergency presents a heightened level of risk for JNJ investors. We also believe JNJ is well positioned to incentivize senior executives to mitigate these risks by ensuring their compensation is tied to effective management of this crisis. As it is structured now, JNJ may insulate senior executives from legal risks by removing associated costs from the metrics that determine their incentive compensation.

JNJ uses adjusted earnings per share ("EPS") and adjusted operational EPS for incentive compensation according to page 42 of the 2017 proxy statement. The adjusted figures are non-GAAP financial measures whose calculations may exclude litigation.

We believe a superior approach to measuring EPS and operational EPS is to include Legal and Compliance Costs, particularly those associated with opioid litigation.

We urge shareholders to vote for this proposal.

Board's Statement in Opposition to Shareholder Proposal

The Board of Directors recommends a vote AGAINST the adoption of this proposal for the following reasons:

For 75 years, Johnson & Johnson has been guided by our Credo in every aspect of our business, including in determining compensation for our employees and executives. We design our executive compensation programs to attract, develop and retain effective global business leaders who demonstrate both strong performance and Credo values to build long term value for our shareholders. The performance of each executive is measured against a set of financial and strategic goals for the Company, as well as financial and strategic goals aligned to the executive's business sector or function. These goals ensure that our leaders consider not only their individual results, but also the ways they can contribute to the long-term value of Johnson & Johnson. In addition, we evaluate the decisions and behavior of each executive to ensure that our executives are leading in a manner that is consistent with the values embodied in the Credo. We believe that by considering individual results, Company performance and Credo values, our incentive compensation programs are appropriately designed to align the interests of our senior executives with the long-term interests of our shareholders.

As a healthcare market leader with a broad range of products and a deep commitment to research and development, we make product quality and compliant marketing and commercial practices our top business priority. We carefully consider these core Credo values when evaluating executive performance. In the ordinary course of business, the Company and its subsidiaries are subject to claims and lawsuits involving various issues, and we are committed to ensuring and defending the safety and quality of our products. We have strong internal compliance programs and rigorous, independent quality and safety review processes, all designed to ensure compliant business practices and high quality products. These programs and processes, which support our core Credo values, help mitigate compliance risk and litigation exposure.

While we have sincere sympathy for individuals and families facing medical and health conditions and deep respect for the legal process, the litigation landscape is complex and driven by a number of external factors. In connection with the concerns about opioids, we have always been committed to ensuring our medicines are used correctly. We provide important information about their risks and benefits on every product label, and we've established educational programs intended to result in healthier patients and reduced rates of abuse and addiction. Janssen pain medicines were designed to prevent and deter abuse, and our medicines have some of the lowest rates of abuse among prescription opioid pain medications. In fact, Janssen no longer develops or promotes opioid-based pain medicines and since 2008, the volume of our prescription opioids always has amounted to less than one percent of the total prescriptions written per year for opioid medications in the U.S. Responsibly used opioid-based pain medications play a critical role in helping doctors and patients manage the debilitating effects of serious pain.

In consideration of this complexity, we believe that our approach to incentive compensation for our senior executives, which considers individual results, Company performance and the values set forth in the Credo, is an appropriate way to align the interests of our senior executives with the long-term interest of our shareholders. Further, we believe that it is essential that the Board maintain flexibility to assess whether or not legal and compliance costs should impact the compensation of specific executives.

It is, therefore, recommended that shareholders vote AGAINST this proposal.

Item 5: Shareholder Proposal – Amendment to Shareholder Ability to Call Special Shareholder Meeting

The following shareholder proposal has been submitted to the company for action at the meeting by William Steiner, c/o Komlossy Law, PA, 4700 Sheridan St. Suite J, Hollywood, FL 33021, a beneficial owner of no less than 100 shares of the company's common stock. The affirmative vote of a majority of the shares voted at the meeting is required for approval of the shareholder proposal. The text of the proposal follows:

Proposal 5 - Shareholder Ability to Call Special Shareholder Meeting

Resolved, Shareowners ask our board to take the steps necessary (unilaterally if possible) to amend our bylaws and each appropriate governing document to give holders in the aggregate of 10% of our outstanding common stock the power to call a special shareowner meeting (or the closest percentage to 10% according to state law). In other words this proposal asks for adoption of the most shareholder-friendly version of the shareholder right to call a special meeting as permitted by state law. This proposal does not impact our board's current power to call a special meeting.

This proposal topic won more than 70%-support at Edwards Lifesciences and SunEdison in 2013. A shareholder right to call a special meeting and to act by written consent and are 2 complimentary ways to bring an important matter to the attention of both management and shareholders outside the annual meeting cycle such as the election of directors.

Johnson & Johnson shareholders do not have the full right to call a special meeting that is available under state law.

If shareholders had a more complete right to call a special meeting, as called for in this proposal, shareholders would have a greater ability to engage our Board to improve the qualifications of our directors and make sure that the Board of Directors is continually refreshed with new diverse talent in order to maintain director independence - since a special meeting can be called in regard to the election of directors.

Please vote to improve the shareholder oversight of our company:

Shareholder Ability to Call Special Shareholder Meeting - Proposal 5

Board's Statement in Opposition to Shareholder Proposal

The Board of Directors recommends a vote AGAINST the adoption of this proposal for the following reasons:

Under our by-laws, shareholders representing 25% or more of the company's outstanding shares have the right to require that we call a special meeting. The Board believes this ownership threshold, coupled with other meaningful shareholder rights to present director nominees in the company's proxy materials (i.e., Proxy Access) and to act by written consent, strikes a reasonable and appropriate balance between empowering shareholders with an important right and minimizing the risk that a small group of shareholders, including those with special interests, could call special meetings. Allowing a handful of shareholders, including those who could borrow shares from other shareholders, to have the ability to call special meetings for any reason could be detrimental to the interest of the vast majority of our shareholders and other stakeholders.

In addition, under the New Jersey Business Corporation Act (NJBCA), which is applicable to our company, shareholders holding at least 10% of the company's shares entitled to vote at a meeting of shareholders may apply to state court to order a special meeting upon a showing of good cause.

Given the company's size and large number of shareholders, significant time and expense is required to hold a special shareholder meeting, which requires the preparation, printing and distribution of disclosure documents, solicitation of proxies and tabulation of votes. These meetings also divert attention, time and resources from the Board's and management's focus on the business. We believe that our shareholders' existing right to call a special meeting is meaningful and appropriate, allowing a relatively small percentage of outstanding shares to call a special meeting while providing reasonable safeguards against potential abuse or waste of corporate resources by a small handful of shareholders.

In addition to the ability to call a special meeting, our company's governance practices and policies provide many effective ways for shareholders to express their views and take action. As explained more fully above on page 23 under "Shareholder Engagement", we actively engage with our shareholders throughout the year, including through meetings attended by our Board Chair and our Lead Director. This engagement positively impacts our governance, often resulting in concrete actions and changes in policy, including actions taken in 2017 (see page 24 "Shareholder Engagement.")

In addition to significant shareholder engagement, our company has many other important governance features and shareholder rights (see page 27 "Additional Governance Features"). In particular, except with respect to the annual election of directors, our shareholders have the right to act by non-unanimous written consent in all instances where they otherwise have the right to act at a meeting of shareholders.

Thus, the Board believes that this proposal is not in the best interests of the company or its shareholders.

It is, therefore, recommended that shareholders vote AGAINST this proposal.

Other Matters

The Board of Directors does not intend to bring other matters before the meeting except items incident to the conduct of the meeting, and we have not received timely notice from any shareholder of an intent to present any other proposal at the meeting. On any matter properly brought before the meeting by the Board or by others, the persons named as proxies in the accompanying proxy, or their substitutes, will vote in accordance with their best judgment.

General Information

This Proxy Statement is furnished in connection with the solicitation of proxies by our Board of Directors for the Annual Meeting of Shareholders. This Proxy Statement, proxy form and our 2017 Annual Report to Shareholders are being distributed to our shareholders on or about March 14, 2018.

Shareholders Entitled to Vote and Voting Standard

Shareholders of record of our common stock at the close of business on February 27, 2018 are entitled to notice of, and to vote at, our Annual Meeting, and at any adjournments or postponements of the meeting. Each share of common stock entitles its owner to one vote. On February 27, 2018, there were 2,682,639,663 shares outstanding.

To constitute a quorum, a majority of the shares entitled to vote must be represented in person or by proxy at the Annual Meeting. Approval of each matter submitted to the shareholders, including the election of Directors, requires the affirmative vote of a majority of the votes cast at the meeting. For purposes of determining the number of votes cast with respect to a particular matter, only those cast "For" or "Against" are included; abstentions and broker non-votes are counted only for purposes of determining whether a quorum is present at the meeting.

How to Vote

You are encouraged to vote in advance of the meeting using one of the following voting methods, even if you are planning to attend the 2018 Annual Meeting of Shareholders.

Make sure you have your Notice, proxy card or vote instruction form in hand and follow the instructions.

Registered Shareholders: Shareholders who hold their shares directly with our stock registrar, Computershare, can vote any one of four ways:

Via the Internet: Go to www.proxyvote.com/JNJ and follow the instructions on the website.

By Telephone: Call (800) 690-6903 and follow the instructions given by the voice prompts.

If you vote via the Internet or by telephone, your voting instructions may be transmitted up until 11:59 p.m. Eastern Time on April 25, 2018, except with respect to shares held in a Johnson & Johnson employee savings plan, which must be submitted by 5:00 p.m. Eastern Time on April 24, 2018. See "Johnson & Johnson Employee Savings Plans" on page 97 for voting instructions regarding shares held under our savings plans.

By Mail: If you received paper copies of the Proxy Statement, Annual Report and proxy card, mark, sign, date and return the proxy card in the postage-paid envelope provided.

In Person: Attend the Annual Meeting, or send a personal representative with an appropriate proxy, to vote by ballot at the meeting. (See "Annual Meeting Information" and "Admission Ticket Procedures" on page 96.)

Beneficial Shareholders: Shareholders who hold their shares beneficially through an institutional holder of record such as a bank or broker (sometimes referred to as holding shares "in street name"), will receive voting instructions from that holder of record. **If you wish to vote in person at the meeting, you must obtain a legal proxy from the holder of record of your shares and present it at the meeting.**

Notice and Access

We distribute proxy materials to many shareholders via the Internet under the SEC's "Notice and Access" rules to save costs and paper. Using this method of distribution, on or about March 14, 2018, we mailed the *Important Notice Regarding the Availability of Proxy Materials* ("Notice") that contains basic information about our 2018 Annual Meeting and instructions on how to view all proxy materials, and vote electronically, via the Internet. If you receive the Notice and prefer to receive the proxy materials by regular mail or e-mail, follow the instructions in the Notice for making this request, and the materials will be sent promptly to you via the preferred method. If you prefer to vote by phone rather than Internet, the website listed on the Notice (www.proxyvote.com/JNJ) has instructions for voting by phone.

Proxy Voting

Your proxy authorizes another person to vote your shares on your behalf at the Annual Meeting. If your valid proxy is timely received by Internet, telephone, or mail, the persons designated as proxies will vote your shares per your directions. We have designated two of our executive officers as proxies for the 2018 Annual Meeting of Shareholders – D. J. Caruso and M. H. Ullmann.

Should any other matter not referred to in this Proxy Statement properly come before the meeting, the designated proxies will vote in their discretion. If any Director nominee should refuse or be unable to serve, an event that is not anticipated, your shares will be voted for the person designated by the Board of Directors to replace such nominee or, alternatively, the Board of Directors may reduce the number of Directors on the Board.

Effect of Not Casting Your Vote

Registered Shareholders: When a valid proxy is received, but specific choices are not indicated, the designated proxies will vote as recommended by the Board of Directors.

Beneficial Shareholders: It is critical that you cast your vote if you want it to count in the election of Directors and most other items on the agenda. Under applicable regulations, if you hold your shares beneficially and do not instruct your bank, broker or other holder of record on how to vote your shares, the holder of record will only have discretion to vote your uninstructed shares on the ratification of the appointment of our independent registered public accounting firm (Item 3). The holder of record will not have discretion to vote your uninstructed shares on the election of directors (Item 1), the advisory vote to approve named executive officer compensation (Item 2), or the shareholder proposals (Items 4 and 5), resulting in "broker non-votes" on those items.

Revoking Your Proxy or Changing Your Vote

You may change your vote at any time before your proxy is exercised.

Registered Shareholders:

- If you voted by mail: you may revoke your proxy at any time before it is exercised by executing and delivering a timely and valid later-dated proxy, by voting by ballot at the meeting or by giving written notice to the Corporate Secretary.
- If you voted via the Internet or by telephone: you may change your vote with a timely and valid later Internet or telephone vote, or by voting by ballot at the meeting.
- Attendance at the meeting will not have the effect of revoking a proxy unless (1) you give proper written notice of revocation to the Corporate Secretary before the proxy is exercised, or (2) you vote by ballot at the meeting.

Beneficial Shareholders: Follow the specific directions provided by your bank, broker or other holder of record to change or revoke any voting instructions you have already provided. Beneficial holders who have already voted may not change their vote at the meeting.

Johnson & Johnson Employee Savings Plans

If you hold shares in a Johnson & Johnson company employee savings plan, you will receive one proxy card or Notice that covers the shares held for you in your savings plan, as well as any other shares registered directly in your name (but not shares held beneficially through a bank, broker or other holder of record). If you vote the plan shares via the Internet, by telephone or by mail, as described above, by 5:00 p.m. (Eastern) on April 24, 2018, the Trustee of your savings plan will vote your shares as you have directed (your voting instructions will be kept confidential). **It is important that you direct the Trustee how to vote your shares.** In accordance with the terms of the Johnson & Johnson Savings Plan and the Johnson & Johnson Puerto Rico Retirement Savings Plan, you are the named fiduciary for shares held in your savings plan and have the right to direct the Trustee with respect to those shares. If you do not direct the plan Trustee how to vote your shares, the Trustee will vote your shares in direct proportion to the votes cast for all shares held in that plan for which voting instructions were provided by other plan holders.

Participants in the Johnson & Johnson employee savings plans may attend the Annual Meeting. However, shares held in those plans can only be voted as described in this paragraph and cannot be voted at the meeting.

Proxy Solicitation

In addition to the solicitation of proxies by mail, several regular employees of the Johnson & Johnson Family of Companies may solicit proxies in person or by telephone. We have also retained the firm of Morrow & Co., LLC to aid in the solicitation of banks, brokers, and institutional and other shareholders for a fee of approximately \$20,000, plus reimbursement of expenses. We will bear all costs of the solicitation of proxies. Any registered shareholder voting by proxy card may substitute the name of another person in place of the persons presently named as proxies. In order to vote, a substitute proxy must present adequate identification to the Corporate Secretary.

Electronic Access to Proxy Materials

This Proxy Statement and our 2017 Annual Report are available at www.investor.jnj.com/gov/annualmeetingmaterials.cfm. If you received paper copies of this year's Proxy Statement and Annual Report by mail, you can elect to receive an e-mail message in the future that will provide a link to those documents and voting instructions on the Internet. By opting to access your proxy materials via the Internet, you will:

- gain faster access to your proxy materials;
- help save on our production and mailing costs;
- reduce the amount of paper mail you receive; and
- help preserve environmental resources.

If you have enrolled in the electronic access service previously, you will continue to receive your proxy materials by e-mail, unless and until you elect an alternative method of delivery.

Registered Shareholders may enroll in the electronic proxy and Annual Report access service for future Annual Meetings of Shareholders by registering at www.computershare-na.com/green. If you vote via the Internet, simply follow the prompts that link you to that website.

Beneficial Shareholders who wish to enroll for electronic access may register at enroll.icsdelivery.com/jnj, or by following instructions for e-delivery from your broker or other holder of record.

Reduce Duplicate Mailings

We have adopted a procedure approved by the SEC called "householding." Under this procedure, registered shareholders who have the same address and last name and who receive either Notices or paper copies of the proxy materials in the mail will receive only one copy of our proxy materials, or a single envelope containing the Notices, for all shareholders at that address. This consolidated method of delivery continues until one or more of these shareholders notifies us that they would like to receive individual copies of proxy materials. This procedure reduces our printing costs and postage fees. Shareholders who participate in householding continue to receive separate proxy cards or Notices for voting their shares.

Registered Shareholders who wish to discontinue householding and receive separate copies of proxy materials may notify Computershare by calling (800) 328-9033, or send a written request to the Office of the Corporate Secretary at the address of our principal office.

Beneficial Shareholders may request information about householding from your bank, broker or other holder of record.

Corporate Governance Materials

Shareholders can see our Restated Certificate of Incorporation; By-Laws; Principles of Corporate Governance; Board Committee Charters; Code of Business Conduct for employees; Code of Business Conduct & Ethics for Members of the Board of Directors and Executive Officers; and other corporate governance materials at www.investor.jnj.com/gov.cfm. Copies of these documents, as well as additional copies of this Proxy Statement and 2017 Annual Report, are available to shareholders, without charge, upon request to the Corporate Secretary at our principal office address.

In that case, such notice must be received by our Corporate Secretary no earlier than the close of business on the 90th calendar day before the date we commence mailing of our proxy materials in connection with the 2019 Annual Meeting of Shareholders and no later than the close of business on the later of (i) the 60th calendar day before the date we commence mailing of our proxy materials in connection with the 2019 Annual Meeting of Shareholders or (ii) the 10th calendar day following the day on which public announcement of the date of the 2019 Annual Meeting of Shareholders is first made.

Advance Notice Provisions: In addition, under the terms of our By-Laws, a shareholder who intends to present an item of business (including a Director nomination) at the 2019 Annual Meeting of Shareholders (other than a proposal submitted or a Director candidate nominated for inclusion in our proxy materials) must provide us with written notice of such business at our principal office, including the information specified in the By-Laws, which must be received during the same windows as those described above under "Proxy Access."

Proposals and other items of business should be directed to the attention of the Office of the Corporate Secretary at the address of our principal office: One Johnson & Johnson Plaza, New Brunswick, New Jersey 08933.
